VOL. 41

VICTORIA, B. C., SATURDAY, JULY 20, 1912

NO. 17

MANY WAREHOUSES ARE DESTROYED

VANCOUVER SCENE OF DESTRUCTIVE FIRE

Property Loss is Estimated at
\$375,000—Fireman Sus-
tain Injuries

Vancouver, July 20.—Originating in a frame warehouse immediately at the rear of Champion & White's five-story brick block on the west side of Main street to the south of Prior street, about midnight last night, fire destroyed one modern brick block and ate up about two scores of wooden warehouses lying between Main street and False Creek, doing damage estimated at \$375,000. The properties damaged and the estimate of loss is as follows:

Champion & White, dealers in all kinds of builders' supplies, five-story brick block, warehouses and wharves, \$209,000, reported to be more than half covered by insurance.

Canada Malleable Range Company, loss in stoves and office furniture, estimated loss \$10,000.

Palmer Bros. and Henning, contractors, office furniture, estimated loss between \$1,000 and \$2,000.

Palmer Bros., damaged buildings fronting on Main street and occupied by Canada Malleable Range Company, Palmer Bros. and Henning, Anchorage rooms, warehouses at rear occupied by Champion and White, Palmer Bros. and Henning, and Commercial Motors, Ltd., estimated loss \$30,000.

Commercial Motors, Ltd., loss in 49 motor cars and garage, estimated loss \$108,900.

Angus rooms, furniture damaged by water and fire, estimated \$2,000.

Royal George Hotel, furniture damaged by fire and water, estimated \$1,500.

Far West Lumber Co., loss in lumber burned, estimated at \$15,000.

British Columbia Electric Co., paint shop on Prior street, destroyed with contents and one street car damaged by fire, estimated loss \$25,000.

Tudhope Motors, Ltd., one automobile damaged, estimated loss \$2,000.

This, of course, is subject to correction when final estimates are in, but it is generally believed by fire insurance men that at the outside \$400,000 will easily cover the property loss and it is declared that the amount of insurance carried by the various companies which suffered will only run to between 40 and 50 per cent. of the total loss, thus leaving a maximum actual loss to sufferers of approximately \$200,000.

The origin of the fire is a mystery. According to the night watchman employed by Shover and Thomas, whose premises adjoin those of Champion & White on the south, he first observed the flames a short time after midnight. They were then racing up the rear wall of the Champion & White brick building. He declares that he could see a hole in the roof of the building, and the fire was running up both outside and inside the walls. The firemen declare that when they reached the scene at 12:30 a. m. the flames were racing up the elevator shaft at the rear of the Champion & White building, the spot where they were first seen by the night watchman.

The first alarm was turned in at 12:25 a. m. and half an hour later was rapidly called out till every station in the city was represented on the ground. The police were early on the scene, and threw a cordon around the burning district to keep the thousands of people who had congregated from interfering with the work of the firemen.

In addition to keeping the streets clear the police routed the occupants of the Angus rooms and the Royal George hotel, and every person in the threatened buildings was hurried to safety. The only person injured was Fireman Thomas Desmond, hoseman of No. 2 hall. During the progress of the fire he stepped on the covering of a light well over a passageway to the south of the Angus rooms, falling fifteen feet to the ground, and badly injuring one of his shoulders.

While the flames were licking their way up the elevator shaft at the rear of the Champion & White building they were also spreading along the frame warehouses at the rear of that block and working their way northward towards the rear of the Angus rooms, and the Royal George hotel, and to the westward in the direction of False Creek through the warehouses, which were partly built over the water. The two aerial trucks of the fire department were placed in front of the Champion & White building, and on each of them a line of hose was run into the top story of the structure.

Assistant Fire Chief Thompson stated today that the aerial trucks did excellent work, and when the pumping engines were coupled to the lines of hose carried up into the building by means of the ladders, good streams at high pressure were thrown. Simultaneous couplings, two and three to each line of hose, carried up the aerial trucks were made at the bases of the trucks, and an ample water supply was pumped. The water pressure on the ground, stated Assistant Chief Thompson today, was between 80 and 100 pounds to the square inch according to the number of lines of hose in use, and was all that could be desired.

COMMISSIONERS LEAVE FOR WEST

RAILWAY BOARD CLOSES SESSIONS AT WINNIPEG

British Columbia Government
Will Submit Evidence—Act-
ing Chairman's Statement

Winnipeg, July 20.—The railway commission left last night for the west. Sessions will be held at Moose Jaw, Regina, Saskatoon, Edmonton, Calgary, Vancouver and Victoria.

Before the close of the sitting last night, W. A. MacDonald, K. C., representing British Columbia, asked if that province might be at liberty to present evidence, and Chairman Scott said they would have that opportunity.

Those present as spectators or counsel yesterday were: W. A. MacDonald and W. D. Power, representing the British Columbia government; M. K. Cowan, of Toronto, representing Saskatchewan and Alberta, and Alexander MacDonald, Winnipeg; H. W. Whittier, K. C., for the Dominion government; J. H. Ashdown, George Carpenter, E. A. Mott, C. N. Bell and John Fleming, representing the Winnipeg Board of Trade; Isaac Pittblado, representing the Dominion in the tolls case, and the Winnipeg Board of Trade and the Grain Exchange; in the freight case, O. H. Clarke, K. C., E. Anderson, K. C., and Isaac Campbell, K. C.

Commissioner Scott made a clear statement of the present position of the railway freight case at the sitting of the commission at the city hall yesterday morning. Mr. Scott said that at previous sessions a case had been made out for the shippers. It has been shown that the rates in the west were excessive as compared with those which obtained in the eastern provinces. It had also been shown that the density of traffic was as great or greater in the west, and that the cost of operation in the west was as low or lower than that in the east. It was therefore incumbent on the companies to show cause why a reduction in the rates should not be ordered. The proof rested wholly on the railways. Further evidence was not required from shippers. Mr. Scott said, however, that any further statement which shippers desired to make would be heard and considered.

HONEST LAUNDRYMAN.

San Bernardino, Cal., July 20.—When his laundry bill showed a charge for washing four greenbacks, George B. Rowan, of Seventh and "D" streets, this city, gasped in astonishment to-day. He looked through his laundry and found that a new pile of carefully-ironed and starched bank-notes had come home with his weekly washing. They amounted to \$60, which he remembered having failed to remove from his clothing before sending it to the laundry.

CAPTURED AFTER 7,000-MILE CHASE

Man Wanted at Vancouver is
Taken Into Custody at
Los Angeles

Los Angeles, Cal., July 20.—A 7,000-mile chase, which began with a desperate leap from a Vancouver express and which has extended over several Canadian provinces and a dozen states of the Union, came to a stop here yesterday, and extradition proceedings were brought before United States Commissioner Vanduyke to take Arthur Bernard Fletcher back to British Columbia to face charges of fraud allegedly by the Hudson's Bay Company, which pressed the relentless hunt. The company charges that Fletcher fraudulently obtained credit from its branch house in Vancouver to the extent of \$400. According to affidavits supplied the Dominion lawyers, other obligations of Fletcher to the company will increase this to about \$7,000. He was arrested in Calgary on a fraud charge, escaped, and the chase resumed. He was found at Venice with his wife.

GRUESOME EXHIBIT.

Head of Woman Produced at Murder Trial.

Cheyenne, Wyo., July 20.—The head of a woman, with long flowing hair, was an exhibit in court yesterday at the trial of J. Warren Jenkins for the alleged murder of his wife, that made the spectators turn away with white faces and the prisoner cry out with horror. Jenkins broke down completely, and it was an hour before he could stop his sobs. While Coroner Board was testifying the head was introduced in order that he might show the woman met her death. Blood-stained garments of the victim were exhibited also.

Jenkins is accused of having murdered his wife in order that he might get possession of a fortune of \$50,000 belonging to her.

ONLY A DROP IN THE BUCKET

TRAGEDY AROUSES NEW YORK CITIZENS

PRIVATE DETECTIVES TO TRACK MURDERERS

Report That \$2,000 Was Price
Paid for Murder of
Gambler

New York, July 20.—Private detectives were brought into the Rosenthal murder case yesterday by District Attorney Whitman. They were engaged by a committee of citizens who shared the lack of results achieved by the police in tracing the slayers of the gambler who was shot after making charges of police partnership with gamblers.

In connection with the bringing in of these outside agencies, attention was called to what were declared lamentable omissions by the police in guarding against the escape of Rosenthal's slayers on Monday night and lack of properly directed activity since. It is said the story that Rosenthal was to be killed was in wide circulation in East Side resorts on Monday evening, but that if any report of it reached headquarters, no measures were taken to protect the gambler. It was commented that nearby police did not fire a shot or blow a whistle to stop the murder party after the shooting; that the number of the "murder car" was reported four different ways—all erroneous—by as many policemen, while a citizen got it right; that it was left to the district attorney to uncover most of the important evidence so far available; that men known to have talked over the prospective assassination of Rosenthal the day before it occurred, even have not been arrested, or were taken and let go on small bail, or in the case of one, held only because the district attorney insisted upon it.

Nothing had been seen of "Big Jack" Selig, the notorious "gun man" whom the police were said to be anxious to question regarding a favor they had heard "Jack" Rose, gambler and the man who hired the "murder car," had asked of him on the night of the crime. Selig is known as the right-hand man of Sam Paul, an East Side gang leader.

The reward said to have been offered him was freedom from a charge of carrying a concealed weapon. Paul was at police headquarters yesterday. He declined to make any statement. It was talk yesterday in quarters usually well-informed regarding "underworld" affairs, that the price paid

for killing Rosenthal had been learned by the police. The figure named was \$2,000. The identity of at least two of the five men who were in the murder party is known in this quarter. It was added, and they are said to have been seen on east side streets several times since on Monday night.

WAGES INCREASED.

Ottawa, July 20.—The printers employed in the government printing bureau have been given an increase in pay amounting to \$1.50 per week. They now enjoy the same scale of wages as prevail in the Montreal and Toronto printing establishments.

NE TEMERE CASE TO BE HEARD MONDAY

Will Come Before Privy Council—Claims of Indians Dismissed

London, July 20.—The judicial committee of the Privy Council yesterday dismissed the Quebec appeal, Corbin and others vs. the ecclesiastics of the Seminary of St. Sulpice in Montreal, which has been under advisement for some days. Interest in the case lies in the fact that the appeal of the appellants, who are chiefs of a band of Indians, was based on the claim that all the signatories comprising the lands in question was decided to their predecessors by King Louis XIV. of France. The highest court in the Empire has, however, sustained the ownership of the church.

On Monday the Privy Council hears the Ne Temere appeal. After that it is concluded, Hon. C. J. Doherty, Canadian minister of justice, goes over to Paris. He says he will visit Ireland before sailing.

STRIKE LEADERS APPEAL FOR AID

American Federation Asked to
Assist Dock Workers Whose
Funds Are Exhausted

London, July 20.—The leaders of the London dock strike have sent a cablegram to Samuel Gompers, president of the American Federation of Labor, asking for immediate financial assistance. The local finances have become exhausted and the leaders fear the strikers will be starved into an unconditional surrender.

RUSSIA AND JAPAN REACH AGREEMENT

DEFENSIVE ALLIANCE HAS BEEN CONCLUDED

Spheres of Influence in Mongolia and Manchuria
Are Defined

St. Petersburg, July 20.—The signature is impending to a pact establishing a defensive alliance between Russia and Japan. The actual agreement was concluded a fortnight ago and likely will be signed for Japan by Baron Motono, the Japanese ambassador to Russia, who was its negotiator and prime mover.

The agreement consists of two parts, one dealing with the delimitation of the spheres of influence of Russia and Japan in Mongolia and Manchuria, which is similar in scope and character to the Anglo-Russian accord of August 31, 1907, regarding Persia, etc. The second part deals with the duty of the two powers for a joint defence in case either power is attacked. The beginning of the present Russo-Japanese rapprochement dates back to the days of Foreign Minister Iswolsky. It is common knowledge that the Japanese diplomats unflinchingly have urged upon Russia the immediate value that would follow such close co-operation as now has been established, especially since Great Britain and Russia were together and made it feasible and logical.

Nevertheless, Russia naturally hung back and every step toward completing the alliance was under the compulsion of other events. Thus the Russo-Japanese agreement of July 4, 1910, providing for the maintenance jointly of status quo in Manchuria was a direct result of the ill-fated neutralization scheme for the Manchurian railroads, and the present one was the outcome of a long middle, which taught both powers the necessity for a close union of forces.

ACCUSED OF MANSLAUGHTER.

Winnipeg, July 20.—The attorney-general's department has laid a charge of manslaughter against A. E. Oakes, the well known local real estate dealer, in connection with the death of Mrs. Jane Preston, who was killed on Saturday evening by the defendant's automobile. A remand was taken in the provincial police court yesterday, bail in bonds of \$10,000 being granted.

FISHERMEN HAVE NARROW ESCAPE

DRIVEN FROM GASOLINE LAUNCH BY FLAMES

Burning Boat Drifts Ashore in
Alberni Canal and Starts
Bush Fires

Port Alberni, July 20.—A blazing gasoline launch, from which a crew of five fishermen had a narrow escape with their lives, bumped the shore of Alberni canal on the west side Thursday afternoon and started a bush fire that is now beyond control of a force of more than twenty men.

The launch was of the Wallace Fisheries fleet of Uchuckiest, and while passing through Hell's Gate, 16 miles down the canal from this city, leaking gasoline caught fire. The crew, being unable to smother the flames and fearing an explosion, departed hurriedly in a small boat and experienced a rough and wet time in their haste to escape anticipated disaster. The burning launch drifted with the tide for three miles and smashed against the shore, just opposite the Happy John mines. The fishermen noticing that the bush had caught fire from contact with the flaming launch hurried to health quarters and immediately twenty men were dispatched to the scene. The men fought all day and all through the night, but they were unable to get control of the situation.

The government telegraph lines were soon put out of service by the fire, which caused delay in getting word to Port Alberni for assistance. District Fire Warden Wood, with a large gang of men, left Port Alberni yesterday for the scene of the conflagration.

WILL LAY DOWN ARMS.

Peace Mission to Albanian Rebels Proves Success.

Salonica, European Turkey, July 20.—As a result of the promise of the Turkish government to dispatch a peace commission composed of Albanian senators to Albania to endeavor to persuade the rebels to suspend hostilities, the Albanians have decided to lay down their arms.

KILLED BY STREET CAR.

Sarnia, July 20.—W. A. Sinclair, former principal of the high school here, was struck and killed by a street car yesterday afternoon.

EXCURSION TRAIN WRECKED.

Baltimore, Md., July 20.—An excursion train on the Western Maryland railroad, which left York, Pa., to-day for Baltimore, was derailed at Maple Grove, Md., twenty miles from York. Seven of the eight cars left the track, but, beyond a severe shaking up, none of the 400 passengers were hurt seriously. The accident is believed to have been caused by spreading rails.

ITALIANS TELL OF REPULSE OF FLOTILLA

Declare Torpedo Boats Destroyed Did Not Sustain
Serious Damage

Rome, July 20.—The Italian government admitted in an official note issued to-day that a flotilla of Italian torpedo boats destroyed yesterday the Dardanelles. The destroyers succeeded in advancing to Chanak-Kale, when it was decided to withdraw because of severe bombardment directed at them from the Turkish forts and ships. The Italian vessels, the note adds, were not much damaged.

Chanak-Kale, commonly called Dardanelles, is a town on a flat point opposite Kilit-Bay fort on the European shore. The town is defended by Castle Chanak-Kale, which for two years has been reinforced with heavy guns and modern equipment.

Sultan's Proclamation. Constantinople, July 20.—The grave nature of the government's difficulties is revealed in a proclamation of the Sultan, to the army, read yesterday to the garrison. After announcing the appointment of Tewfik Pasha as grand vizier, the proclamation reminds the troops of their oath of loyalty and refers to the demands by certain officers contrary to the constitution and abuses rights of the Khalifa, exhorts the army not to mix in politics, but to devote itself exclusively to the defence of the country. The proclamation concludes by pointing out that the officers' reasonable attitude had encouraged the enemy to the extent "that the enemy dared last night to approach to the very gates of the capital. This should constitute a warning." The proclamation was provoked by a meeting of officers at the war office, which delegated Nazim Pasha, and Hadi Pasha to submit to the Sultan the order of the chamber of deputies and the appointment of Kiamil Pasha as grand vizier.

LONDONER WINS KING'S PRIZE

PTE. FULTON SCORED 336 IN THREE STAGES

Scores of Canadians Who
Competed at the Bisley
Rifle Meeting

Bisley Camp, Eng., July 20.—Private A. G. Fulton, Queen's Westminster, wins the King's prize with 336 out of possible 356. Sergt. Garden, of Sussex, was second with 331, winner of the silver medal; Sergt. Keeley, of South Africa; Sergt. R. Sim Harvey, of South Africa; and Corpl. Bisset, of Gurnsey, were tied at 329 for third, fourth and fifth places; Sergt. McCullough, of Strling, Scotland, was sixth with 327. Lord Roberts to-day inspected the Canadian team, speaking to every man and being photographed with them. There is the usual final day bustle of breaking up camp and leave taking.

St. George's Vase. The second stage of the St. George's challenge vase, 15 shots at 900 yards, was shot off at 9 o'clock before the final stage of the King's prize opened, when of the three Canadians left, Sergt. Armstrong, of Halifax, made 58; Capt. Forrest, of Vancouver, 70, and Capt. Slater, of Vancouver, 46. The St. George's vase was won by Corpl. Mann, of the Honorable Artillery Company, with an aggregate for the two stages of 118. Capt. Forrest tied for second place at 117, with Gunner Patterson, of the Lowland Royal Field Artillery, and Sergt. Hyslop, of the Royal Scots, but in shooting off Forrest made two bulls and one centre, winning the silver cross and 15; Armstrong, fourteenth, and Slater, forty-second, each win 15.

Grand Aggregate.

The grand aggregate, awarded to the competitor whose scores in the King's prize, first stage, St. George's vase, first stage, Alexandra, Daily Graphic, Graphic and Daily Telegraph, make up the highest aggregate, was won by Sergt. R. Sim Harvey, of the Transvaal. Of the Canadians who secured the bronze cross awarded the first hundred, Capt. Forrest was 4th, Sergt. Armstrong 5th and Col. Sergt. Stoddart 22nd, each winning 15. McPherson was 46th, Staff-Sergt. Bayles 49th, Sergt. Battershill 51st, Capt. Andrews 55th and Lieut. Maggs 106th, each winning 12.

The King's Prize. Following are the detailed scores at 900-yard range of the final stage of the King's prize, made by the four Canadians left in:

Battershill, Winnipeg. 31333333455-38
Blackburn, Winnipeg. 54444444555-47
Forrest, Vancouver. 555455555-47
Forrest, Ottawa. 5555425555-47

At the close of this range, the Canadian aggregates were as follows: Battershill 224, Blackburn 235, E. Forrest 234, Forrest 231.

Following are the scores at the 900 yards range of the King's prize:

Battershill 544534555-48
Blackburn 544555555-48
Forrest 554555555-46
Forrest 4554543544-48

At the close of this range the Canadian aggregates were as follows: Battershill 267, Blackburn 280, Forrest 282, Forrest 274.

Other Contests.

Lieut. Blackburn won the McQueens, an unlimited event, seven shots at 1000 yards, the first prize being a silver cup and £2 15s. Lieut. Jeffreys, of South Africa, won the R. M. M. C. cup, seven shots at 1000 yards. Slater, eighth, and Auld, nineteenth, each won £1.

Sergt. Harvey, of South Africa, won the Amourers' Company prize, seven shots at 900 yards. Staff-Sergt. Bayles, Toronto, ninth, won £1.

MONTREAL TRAGEDY.

One Man Killed and Another Seriously Wounded.

Montreal, July 20.—John Sheppard, a plasterer, of Chicago, in a sudden fit of rage last evening, shot and killed Fred McKenna, a bartender at the Turkish Bath hotel, and also seriously wounded Dr. R. S. Devlin, son of the proprietor. The shooting took place in a small room off the barroom. Sheppard at the time was accompanied by his wife and three children. After the shooting the man calmed down and went to the hotel clerk, telling him what he had done. He then calmly awaited the arrival of the police and since his arrest, but repeatedly asks for news from the Victoria hospital where Dr. Devlin lies with a bullet through his right shoulder.

Sheppard has passed a number of years in Chicago. Some time ago, according to his wife, he sustained a fall from a scaffold resulting in concussion of the brain. He received 31-200 damages. Since his accident, according to his wife, he has been subject to fits of insanity.

TEACHERS VISIT ALDERSHOT.

London, July 20.—The Canadian teachers visited Aldershot on the invitation of Lieut. and Mrs. O'Malley, both of whom are Canadians. The party witnessed artillery operations and inspected the schools, hospitals and transport supply depots. Later they were entertained at luncheon by Gen. Sir Douglas and Lady Haig.

ATTEMPT TO WRECK TRAIN.

Lexington, Ky., July 20.—A large trolley belonging to the Rock Island in Bath county, where 200 miners are on strike, was blown up Thursday night. A railroad tie, heavily charged with dynamite, was discovered early yesterday, just in time to prevent a train from being wrecked. The company has placed additional guards about the plant.

C. N. R. DISBURSEMENTS.

Vancouver, July 20.—Last month's disbursements by the C. N. R. on account of construction on Vancouver Island and the Mainland established a new record, reaching a total of \$1,111,000. In the tenders just called for the building of an additional 40-mile section on Vancouver Island, it is stipulated that the work must be finished within 12 months.

CANADIAN BUSINESS OUTLOOK BRIGHT

Banks Calling in Reserves
From Abroad to Meet
Local Demands

Ottawa, July 20.—A continuation of healthy business conditions throughout Canada is indicated in the last statement for the month of June issued by the department of finance yesterday.

An increase, from \$8,065,157 to \$123,028,097 in call loans in Canada compared with a decrease from \$56,288,570 in call loans outside Canada indicates that banks are calling in their reserves from abroad to accommodate Canadian business. Current loans in Canada at the end of June stood at \$49,940,089, an increase of over ten millions as compared with May. Demand deposits in June totalled \$373,500,188, a decrease of about three millions due to customary holiday withdrawals with notice. Deposits increased a few millions. Deposits outside of Canada increased from \$77,874,540 to \$82,067,098, while circulation moved up from \$88,817,333 to \$102,911,848.

KOREAN CONSPIRACY.

Seoul, Korea, July 20.—During the public examination yesterday of 123 converted Koreans, charged with plotting against the life of Count Terachi, the Japanese governor-general, the examining judge named about a dozen American and Canadian missionaries, whom the prisoners during the preliminary examination had asserted were indirectly connected with the conspiracy because they were connected with the schools to which prisoners were loaned, or spoke, to the prisoners concerning the independence of Korea. There is not the slightest reason to believe from the questions of the judge or from the authorities that the government has any idea of formulating charges against the missionaries.

ENTOMOLOGICAL CONGRESS.

Ottawa, July 20.—Dr. C. Gordon Hewitt, Dominion entomologist, who carries on his work at the experimental farm here, will leave for England on July 26 to represent Canada at the international congress of entomology, which is being held at Oxford on August 5 to 16. Subsequently he will attend a conference with the secretary of state for the colonies in the colonial office for the purpose of working out a scheme for imperial co-ordination in the prevention of the spread of insect pests and the extinction of noxious insects which occur in different parts of the empire.

MODUS VIVENDI MAY BE ABROGATED

Fishery Arrangements with
United States Now Under
Consideration

Ottawa, July 20.—Abrogation of the modus vivendi between Canada and the United States with reference to fishery regulations has been strongly suggested to the department here, and while no action on that line has been taken, it is stated that the matter is under consideration. Many years ago a treaty was negotiated, by the terms of which American fishermen, upon the payment of a nominal licence fee, were allowed certain privileges in Canadian fishing ports and in return the United States admitted certain fish free. The latter provision was done away with by the American government several years ago but the Canadian act still holds. While the United States fishermen cannot fish within the three-mile limit, they may on payment of a licence fee of \$1.50 per ton of their vessels, enter Canadian ports, secure supplies, tranship their cargo and generally use the port as a base of operation.

In consideration of the fact that Canada secures no compensating advantages and that Canadian fishermen are competed with strongly the modus vivendi is regarded as a juggling arrangement. It has consequently been proposed that it be abolished or at least revised so that the Canadian rights may be equalized.

The department of marine and fisheries last night instructed the customs authorities at Harrington, N. S., to seize still another United States vessel and to take its licence for violating the provisional three-mile law. This will make two seizures in four days.

DECLINE IN THE PRICE OF CONSOLS

Due to Belief That Anglo-German War is Inevitable,
Says London Paper

London, July 20.—The London Statist expresses the opinion that the phenomenal decline in consols is due to "the universal belief at home and abroad that war is inevitable between this country and Germany," and has caused much discussion in financial circles. The Statist's editor, Sir George Parish, has been investigating the situation in Berlin and in other German cities so that what his journal says carries weight. Here are extracts from the paper:

"Whether the world judges Germany too harshly or not, the world unquestionably believes that her navy is intended against this country, and while that belief exists it is vain to look for a material recovery either in consols or in German securities. Germany and England are two of the richest countries in the world. If we except France and the United States, they are of all the great powers the richest. Yet the premier securities of both stand lower than those of any other great government. It is clear that the depreciation of Germany's three is far greater than it could possibly be when an actual crash is not imminent, were it not that other influences than mere money market movements are sending it down, and the other influences are the universal fear that a war with the British Empire is sooner or later inevitable.

"Thus we find that the two states in Europe which stand first in enterprise and world-wide trade are the very two whose securities stand lowest, and the only explanation of the phenomenon is that it is believed at home and abroad that they are rushing to a conflict with one another which must entail immense losses and pile up debt enormously, however otherwise it may end.

"What must be the cost to Germany of a life and death struggle with the British Empire? When one thinks of all that, it is not a matter for surprise, such as is often and so widely expressed, that the premier securities of both countries stand as low as they do at present."

Berlin Views.
Berlin, July 20.—The severe decline of British consols and the action of the German government issues have not been attributed here to any sensational political causes. To speak more plainly, the shrinkage in these high-grade securities is not put down to renewed talk of the possibility of war between this country and England.

KILLED BY TRAIN.

New Westminster, July 20.—An inquest was held here into the death of E. Candron, who was run over by a C. P. R. train in the yards at the foot of Twelfth street at midnight Wednesday and a verdict of accidental death was returned. The evidence went to show that the man was intoxicated at the time. Some time ago an Indian was run over and killed because he was incapable of taking care of himself. At first it was thought that Candron's life might be saved and his right arm and leg were amputated, but the shock was too great for him and he failed to rally.

PANAMA CANAL TOLLS.

Melbourne, July 20.—The House of Representatives here unanimously adopted a motion setting forth that "in the opinion of the House any system providing for a bonus or rebate of canal dues to American shipping using the Panama canal would be detrimental to the interests of Australia."

ATROCITIES IN PERU RUBBER DISTRICT

Questions in House of Commons—Great Britain and U. S. in Accord

London, July 20.—The atrocities committed in the Putumayo rubber district in Peru, which universally have been characterized here as surpassing in horror any charged to the rubber collectors of the Congo, apparently will be kept in the limelight until something is done to punish the perpetrators and to bring about the assurance that there will be no repetition.

Questions were launched at the British foreign office in the House of Commons yesterday. "It is clear, I think," said Francis D. Acland, parliamentary secretary for foreign affairs, "that the United States has a better opportunity of getting things done than any other government interested."

Mr. Acland also referred to the question raised by the United States government as to whether Peru is a suitable state to have control of a district like the Putumayo, or whether that government should not be forcibly disposed of it, and he promised that "His Majesty's government will do everything it possibly can to help any action the United States may take."

Mr. Acland said the rubber company was now in liquidation, but that the government would be delighted if any of its directors could be made amenable to English laws.

The speaker added that none of the perpetrators of the outrages were Englishmen.

Working in Accord.

Washington, D. C., July 20.—Correspondence between the state department and the British government looking to the suppression of the atrocities practiced upon natives in the Putumayo rubber country, indicates that the two governments are in perfect accord.

Stuart J. Fuller, this government's special agent, recently announced his arrival at Iquitos. He is not expected to make an original investigation, for the state department has accepted the British report as sufficient. The Peruvian government having undertaken to bring to justice the guilty ones, Mr. Fuller is charged to see to it that this promise is redeemed and that the conditions complained of are ended.

DENOUNCES MILITANTS.

London, July 20.—Mrs. Henry Fawcett, on behalf of the executive committee of the National Union of Women's Suffrage Societies, has issued a protest against the militant tactics of the Women's Social and Political Union, of which Mrs. Pankhurst is the founder. Mrs. Fawcett appeals to the members of the militant body to stop their acts of violence which, she says, are bound to be disastrous to the cause.

FREIGHT SERVICE TO BE EXTENDED

Agreement Entered Into by
Canadian Pacific and Northern
Pacific Railways

Vancouver, July 20.—The Canadian Pacific and Northern Pacific railways have just entered into a new traffic agreement covering freight and passenger business in the Puget Sound country. The agreement is for a period of ten years. It provides for the maintenance of the existing passenger service between this city and Seattle via Sumas and an extension of the freight service to Tacoma.

In regard to passenger trains the C. P. R. will supply the equipment and between Sumas and Seattle trains will be operated by power supplied by the American road. Under the agreement, which is already effective, the Northern Pacific agrees to improve its roadbed over the American portion of the haul.

A large percentage of the freight traffic destined for Puget Sound points originates with the C. P. R. in Chicago and other points and as heretofore it will be routed via the Soo Line and C. P. R. to Sumas, whence it will be transferred to the Northern Pacific. The new traffic arrangement, in instances where the traffic is secured in Tacoma by the C. P. R. agents, provides for shipping it eastward via the same route when destined for points in the middle west and eastern states.

DOUBLE TRACKING CANADIAN PACIFIC

Work Will Be Rushed on Section Along Shore of Lake Superior

Port Arthur, Ont., July 20.—It is apparently the intention of the Canadian Pacific railway to proceed with all haste in the double-tracking of its line around the north shore of Lake Superior, thus connecting up its double lines in the west with those of eastern Canada. The contract was yesterday awarded to B. Hewitson, of Port Arthur, for a nine-mile section, a short distance east of Port Arthur, and it is understood many other sections of the work will be commenced under similar contracts with different firms in a few days. Contractors are asked to rush work.

POULTRY DEALER

MUST PAY DAMAGES

Roseland Man Who Received Roultry Pullets Awarded \$438 and Costs

Vancouver, July 20.—If a dealer sells you poultry that are diseased, when you specify healthy fowl, and in consequence your other poultry become ill and cause you loss, you have a good claim for damages against the dealer. This is the effect of an interesting judgment given by His Honor, Judge Grant, yesterday, in which His Honor awarded H. W. Grigor, of Roseland, judgment for \$438.00 on a counter-claim against Herbert Williamson, of Cordova street, a poultry dealer. Mr. Williamson's claim for \$110, the price of ten dozen pullets, was dismissed with costs.

In defending himself in the action, Mr. Grigor had set up that the pullets, when they reached him, were suffering from diphtheric roup. He had, on examination, instructed the express company to take them away again, but as the company had no place in which to keep them, they refused to take them, and Mr. Grigor, who runs an egg ranch, had to put them in his own hen coops. In consequence, the hens in the adjoining coops took the disease. Some died and others were made so ill they could not lay that season, and Mr. Grigor had also to buy medicines and spend many hours in nursing the diseased birds back to health. In his judgment his honor said: "From the letters, plaintiff should certainly have understood that the defendant was in the business of hen or egg-raising, and required a good class of birds. There was clearly no selection of the birds made by the defendant before shipment. That the birds sent were not of the required standard there can be no doubt. Many of them were under-sized, and others were of mongrel breed. There can be no doubt either as to the bad state of health of the birds, as most of them were rumpy, the disease being in such an advanced stage as to have made it easily noticeable when they were shipped. Had reasonable care been taken to ascertain their state of health."

"On the facts in this case, the plaintiff's action herein should be dismissed with costs, and the defendant should have judgment in his counter-claim for \$438.00 and costs, and there will be judgment accordingly."

HOW I MADE

MY HAIR GROW

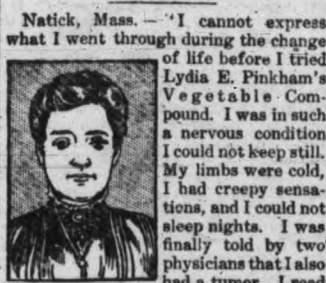

Women With Marvelously Beautiful Hair Give Simple Home Prescription Which She Used With Most Remarkable Results.

I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations and various prescriptions, but they all signally failed; many of them made my hair greasy so it was impossible to comb it or to do it up properly. I think that many of the things that I tried were positively injurious, and from my own experience I cannot too strongly caution you against using preparations containing wood alcohol or other poisonous substances. I believe they injure the roots of the hair. After my long list of failures, I finally found a simple prescription which I can unhesitatingly state is beyond doubt the most wonderful thing for the hair I have ever seen. Many of my friends have also used it, and obtained wonderful effects therefrom. It not only is a powerful stimulant to the growth of the hair and for restoring gray hair to its natural color, but it is equally good for removing dandruff, giving the hair life and brilliancy, etc., and for the purpose of keeping the scalp in first-class condition. It also makes the hair easier to comb and arrange in nice form. I have a friend who used it two months and during that time it has not only stopped the falling of his hair and wonderfully increased its growth, but it practically restored all of his hair to its natural color. You can obtain the ingredients for making this wonderful preparation from almost any drug-store. The prescription is as follows: Menthol Crystals, 2 oz.; Lavona de Composee, 2 oz. If you like it perfumed add a few drops of To-Kalon Perfume, which mixes perfectly with the other ingredients. This, however, is not necessary.

Apply night and morning; rub thoroughly into the scalp. Go to your drugist and ask for an eight-ounce bottle containing six ounces of Bay Rum; also one-half drachm of Menthol Crystals, and a two-ounce bottle of Lavona de Composee. Mix the ingredients yourself at your own home. Add the Menthol Crystals to the Bay Rum and then pour in the Lavona de Composee and add the To-Kalon Perfume. Let it stand one-half hour and it is ready for use.

MRS. GREATON'S AWFUL EXPERIENCE

During Change of Life—How Lydia E. Pinkham's Vegetable Compound Made Her a Well Woman.

Natick, Mass. — "I cannot express what I went through during the change of life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold, I had creepy sensations, and I could not sleep nights. I was finally told by two physicians that I also had a tumor. I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it has worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish my letter."—Mrs. MARION SWEET GREATON, No. 1 Jefferson St., Natick, Mass.

Change of Life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

PREMIER ASQUITH

RECEIVES OVATION

Speaks in Dublin on Home Rule—Sufragette Ejected From Theatre

Dublin, July 20.—Premier Asquith again last night was the recipient of another ovation at the hands of the people of Dublin. Both inside and outside the Theatre Royal, where he made an address, Mr. Asquith, who was accompanied by his wife, was greeted by enormous crowds who repeated the welcome they gave him Thursday night.

John Redmond, the leader of the Nationalists, in introducing the premier to his audience, said that such a reception never hitherto had been accorded to any cabinet minister and never again would be until Mr. Asquith came to Dublin to attend the King to open an Irish parliament. Mr. Asquith's speech was interrupted at times by male and female suffragettes, several of whom were violently ejected from the theatre. The speech was a warm definition of the Irish cause. He characterized opposition to Home Rule as merely obstructive and chaotic, but powerless to wreck the Home Rule bill which the premier said would be sent to the House of Lords before Christmas. Then he added to have patience and discipline, that the end was in sight. The triumphs of Ireland's cause would be the first step in the re-organization of Ireland's affairs, which was the one and only step which would be taken until matters had reached the stage where Ireland could manage her affairs as she saw fit.

While matters were proceeding smoothly inside the theatre, things were happening on the outside. The suffragette demonstration was in full blast when the police set upon the demonstrators and for a few minutes it looked like a full-sized riot, but was soon quelled. The suffragettes were thoroughly frightened by the onslaught of the police and were glad to seek refuge in groups in the areas by the side of the post office.

WILL BUILD MILL AT COWICHAN LAKE

M. M. Boyd Says Cowichan Lake Lumber Co. is Planning to Extend Operations

Vancouver, July 20.—The Cowichan Lake Lumber Company is planning to erect a sawmill at the lake and another later on at a site already secured in the vicinity of Port Moody. This was the announcement made yesterday by M. M. Boyd, a leading shareholder of the company. Mr. Boyd has just returned from an inspection of the company's timber limits which comprise about 11,000 acres near Cowichan lake, Vancouver Island, and large tracts on the mainland. The company is a member of the well-known Mossman-Boyd Company, a corporation which has been engaged in logging and sawmill operations in Northern Ontario for many years past. He comes from a family identified with the industry for a long period, his father having first engaged in it in 1835. On an island near Bobcaygeon, Mr. Boyd is conducting interesting experiments in interbreeding buffaloes and polled angus cattle. A handsome profit is being derived from the sale of the pelts.

THE PRAIRIES AFIRE.

During the election campaign in the province of Saskatchewan the Times took occasion to express the opinion that the presence of Hon. Robert Rogers, Mr. Borden's Minister of the Interior, in the contest would have a pernicious effect. It had precisely that effect. The farmers of the prairies accepted the interference of Mr. Rogers as a challenge from the manufacturers of the East. They accepted the gage of battle. Now that the battle has been fought and won, the farmers, while not glorying in their victory, want to know what the government and the interests behind it intend to do when a condition, not a theory, confronts them. Being human, the prairie men are perhaps saying things that had better have been left unsaid. Some of them hunt at reprisals, but possibly wiser counsels will prevail, provided the government gives evidence of a desire to meet the conditions which prevailed in the west during the past year and which may possibly be aggravated during the coming fall and winter.

One of the farmers of the prairies, J. R. Long, of Mordach, Sask., has addressed an "open letter" to the Canadian Manufacturers' Association. The document is written in a characteristically breezy western style. It does not mince matters in the least in presenting the views of the men of the prairies on trade and cognate questions. We can only give a portion of what Mr. Long has to say, but would advise all interested in a very poignant situation to procure a complete copy of the letter if they can.

Here is what Mr. Long says in part: Since your association is primarily responsible for the defeat of reciprocity, I desire to place before you a few facts from a westerner's viewpoint, and to ask your association, in view of these facts, what means your association are prepared to take to offer relief to the dangers we westerners have before us, which dangers will not only affect our progress and prosperity, but that of the entire Dominion, since the three western provinces are the great unloading platforms for the products of the factories of the east, and for the products of the mines and forests of the west coast province.

I recall the distressing circumstances that beset thousands of our western farmers last fall by the east's rejection of the reciprocity agreement, which rejection prevented us from shipping our millions of bushels of grain into our nearest foreign markets.

Thousands of our farmers, notwithstanding that their granaries were filled with millions of bushels of marketable wheat representing millions of dollars of wealth, were unable to obtain fuel and the usual quota of the necessities of life because eastern manufacturers and eastern wholesalers were pressing for collections which made further extensions of credit impossible, and as a result there were sufferings and hardships, half of which has not been told. This, mind you, gentlemen, with only one hundred and eighty millions of wheat as a harvest. Now this year's harvest gives promise of two hundred and fifty millions of bushels of wheat, and there are still millions of last year's crop in the country. There are no more storage facilities comparatively than there were last year.

There are no new outlets. There is no greater demand in the motherland than there was last year. No new markets have been created. Now what is to become of this year's crop?

Do you realize that if the western farmer cannot get a market for his grain he cannot meet his obligations? Do you realize that if the western farmer can ship his grain into the American markets, for which privilege he is obliged to pay a duty of 25 cents per bushel, the west will lose millions of dollars? And do you realize, Mr. Manufacturer, that if we have to lose millions of our money for the privilege of shipping our grain into a foreign market, a market to which through your influence we were denied

the free right of access, the west will stand for that loss?

Now we are just as loyal to British institutions as the members of your association, but, alas, our loyalty does not consist of flag-waving. While loyal to British institutions we do not propose to submit to any policy that is sectional, to any policy that is a class policy, and is thereby robbing us of our just and fair rights. We will ever be loyal to the traditions and institutions of our motherland, but we will not be led to believe that loyalty compels us to buy machinery and products of only Canadian manufacture, and if deprived of the fullest share of our rights, gentlemen, and if forced by your interests to pay millions of dollars to gain access to the best markets, you need not be surprised if we buy our implements and supply our needs in that foreign market.

Gentlemen, we represent an industry that has three dollars invested to your dollar. Our industry employs as great an army as yours. Without it your industry would not, could not exist, and yet the "sectional" and "class" legislation that governs enables you to earn fully five times the amount of profit on your investment that we can earn on ours. Do you think we can longer tolerate such a system? Do you think the people of the east who were misled and deceived by your false, un-British cries of "annexation" and "disloyalty to the motherland," like thousands of the west who foolishly listened to the same cry, but who have seen their folly, will not be awakened, are not already awakened, to the absurdity and mischief of your unjust system and un-sound policies? The people are now studying the matter as a question of economics; they are sinking and will sink party names and party differences, and will rise in their majesty and strength and declare for the abolition of that unjust system you call protection, designed solely for your benefit and the benefit of your allied interests. In the meantime, what is to become of our two hundred and fifty million bushels of grain this year, and the increasing millions of the next three and five years? The west anxiously awaits a reply.

SENTIMENT AND BUSINESS.

The Minister of Railways and Canals in the federal government appears to an eminently sensible man, albeit the remarks he made yesterday in Victoria were slightly tinged with sentiment. Hon. Frank Cochrane says he likes the province of British Columbia best, next to his own province of Ontario. The bareness of the vast prairies had a repellent influence because of the lack of trees and water. Hon. Frank says there is a sense of companionship in trees and water. That is a true, if somewhat rite, observation. But there is a greater sense of companionship in the creatures that make their homes in the trees and in the waters upon the face of the earth. We take it that there is also a greater floral wealth in British Columbia than in any other part of this wonderful Dominion of Canada, and it is something to realize that this influence of nature is not smothered in snow or ironbound in frost during the greater part of the year, as is the case in Ontario, and in all of the other provinces. Mr. Cochrane should pay us a visit in the winter season in order to reach a full realization of the charms of this Pacific province.

But we do not look for sentiment in the make-up of a cabinet minister. That is not altogether. We expect ministers to devote their observations to practical things. Hence it was gratifying to have Mr. Cochrane refer to the necessity of the construction of a bridge across Seymour Narrows. Now that both the late and the present governments are committed to that important undertaking it will become something more than a matter of talk and speculation in the course of a very short time, particularly as the Minister of Railways and Canals says it is the duty of the government to spend, not to hoard-up, money. The federal treasury is in a very healthy condition just now, thanks to the fiscal wisdom of the late administration.

Then there is also the matter of the encouragement of industries in this province, a matter of business, not of sentiment. There is no reason why the shipbuilding industry should not flourish in the maritime province—a province which is got maritime for half the year, but whose waters are open all the year round. If the naval programme of the late government had been adhered to, there is reason to believe that a healthy stimulus would have been lent this important industry. Ships of a certain class at any rate would doubtless have been in course of construction at Esquimalt at the present time. We hope Mr. Cochrane, as a practical man will not fail to impress this fact upon his chief when the cabinet again assembles at Ottawa, when the period of pleasure and sight-seeing is at an end, and when Mr. Borden has made up his mind, with the assistance of the admiralty, on the Canadian naval question.

NOT ENTIRELY CONSISTENT.

In that trifling matter of the tax on fuel the expected has happened. The tax has been removed. To this action, the Times has no objection, even though the parties relieved from the burden of taxation are large corporations. Because there is no doubt that in the final analysis if the tax had been maintained the corporations mulcted would have found means of shifting the burden to the consumer. The incident simply illustrates at this

time when illustrations are needed the folly of piling up unnecessary burdens of taxation. No doubt persons of an inconveniently inquisitive bent of mind will now want to know why things go every day use by ordinary people, things necessary to the comfort and convenience, even to the life, of the people should not also be admitted to the country free of duty. Why should the individual be discriminated against in favor of the corporation? We submit that if this matter were submitted to the Federal government it would be a very difficult matter to explain to the common understanding. In the case of fuel oil there is no doubt whatever that the ruling of the customs officials was correct. But influence was brought to bear upon authorities higher up, than mere officials, with the result that the official ruling was upset. The reasons why a government, which is a "protected" believer in the principles of high protection has seen fit to make several breaches in the tariff wall of late are not difficult to understand. The current of popular opinion in Canada and elsewhere is at the present time running high against protection. But is it not just at such times that an avowed protectionist government should stand firmly by its principles. By its actions it is furnishing material for the use of its enemies.

Some one has said that if women are called upon to act under a heavy emotional strain they are sure to act irrationally. Judging from what is happening almost every day in Great Britain that opinion is not far astray. The conduct of the Suffragettes indicates that they are suffering from acute brain-storms. The militant ladies are certainly not advancing the cause of woman suffrage.

The path is not being made smooth in these days of political unrest in Great Britain for the Churchmen who dares to harbor heretical opinions upon the public questions of the day. It seems there are actually bishops who hold Liberal opinions and that these unwise souls are suffering the consequences of their belief. Hence a vicar, also a bold man, has been moved to write to a newspaper as follows: "If the matter were only a difference of opinion between individuals it might be settled by amicable argument, but at the bottom of the trouble is political animosity. Those who have engineered the trouble are politicians first and Churchmen afterwards. They cannot tolerate a Bishop who is not of the same political color as themselves."

While medicine may not be an exact science, it goes marching on. Diabetes has long been a thorn in the flesh of physicians, but, according to an announcement from New York (probably not the most reliable source in the world) something that looks very like a cure, or at least an alleviation, of the disease, has been discovered. The remedy is a serum, of course, and credit is claimed for it having cured eleven cases of acute diabetes. The remedy, called bacillus bulgaricus, was procured in Europe. It was tested upon eighty cases. Of these one showed four and nine-tenths per cent. of sugar in the blood at the start, and at the end of three months of treatment there was less than one-tenth of one per cent. of sugar shown in the index. Eleven cases were cured absolutely in six months and sixty cases showed marked improvement.

THREE IN ONE.

From the London Chronicle. Unlike most great musicians, Handel had an enormous appetite. To prevent the possibility of short rations he would take extraordinary precautions. On one occasion he went to a tavern—in the days before restaurants—and ordered dinner for himself and two friends. As the past seemed inordinately long in preparation, the hungry composer sent for the proprietor and asked angrily why he was kept waiting. "We are waiting for the other two gentlemen," was the explanation. "Don't bring up de dinner prestissimo," shouted Handel. "I am de other two gentlemen."

IT APPEARS NOT.

St. Louis Republic. A runaway automobile ran over a horse and then jumped into a house. Cannot science invent something that will break loose in the street once in a while and run over an automobile?

Don't forget its unbeatable flavor is making them all ask for

AND that's news that's worth the telling. It is just now that most women are looking out for the lightest, coolest and most dainty dresses that can be found, so this is an offer that is sure to be appreciated. It is a clearance sale of about 80 dresses, and if an unusually good quality and a very unusually low price is an inducement they should all be sold in an hour. They come in muslins and prints and there is a choice assortment of patterns and colorings to choose from. Of course, they are all made for service but still the designers have managed to produce some very attractive styles that are equally good for wearing round the house, and occasional-street wear—\$2.75 values to clear at **\$1.90**

Big Bargains in Silk Waists at \$2.90

THAT'S AT 7.30 TO-NIGHT

TWO styles to choose from. The one is a plain tailored shirt waist that is finished with soft turn-back cuffs and soft turn-down link cuffs. The other is a smart Quaker style and has a collar that is a little different in shape to any that we have sold on previous occasions.

Both come in striped Japanese silks in either light or dark colored effects.

The Quaker style is to be had in blue and white or grey and white stripes of about equal widths, and if you prefer it, you can have fine or medium black stripes on a white ground. The plain tailored style is to be had with stripes in various widths in colors tan, mauve, blue, grey and black.

They are a good value, but you should see them and judge their value for yourself.

Children's Dresses Go at a Sacrifice at 7.30 To-night. They Are the Best Values You Have Seen This Season

\$1.00 DRESSES, SIZES 2 TO 6, FOR 45c

Here's an assortment of useful and daintily designed Wash Dresses for girls from 2 to 6 years old. There are prints and gingham in black with white rings or spots, navy blue with white rings and spots, navy with white stripes of various widths, neat cheek patterns in light blues, pink and tans; also plain holland garments trimmed with pipings of pale blue and red.

Buster Brown, Mother Hubbard, and long waisted styles are here to choose from in a variety of slightly different styles, some having round, square, V-shaped or high necks, and most of the garments have short sleeves and neat cuffs.

From a variety like this it should be an easy matter to please both mother and the little girl.

THREE SPLENDID LINES OF WHITE MUSLIN DRESSES.

REGULAR \$1.75 VALUES FOR 95c

SMART MUSLIN DRESSES for girls from 8 to 14 years old. They are to be had in several different styles, and it is only because the season is advancing that we have made such a cut on these dainty garments. They are good for street wear during the hot weather, and you couldn't wish for a better

Heavy Reductions on Boys' Clothing

OUR ENTIRE STOCK OF WASH SUITS AND BLOUSES MUST BE CLEANED OUT BEFORE THE END OF THE MONTH

AND with only another nine days for shopping ahead of us in which to dispose of a large number of the suits, we have made a final price reduction that should clean out the goods in record time.

At the end of the month we will be busy stock-taking, and by the middle of August we shall be having the new fall goods pouring in. As a result it is imperative that we make a clean sweep of all summer goods.

WASH SUITS for boys, and nearly all sizes are to be had. They come in a great assortment of materials, including fancy piques, ducks, cashmere effects, crashes, gingham, prints, hollands, etc. Buster Brown, sailor and Russian are the styles, and as to the colors and patterns of the materials, there is such a variety that you can't get wrong. Values to \$2.75 are marked down to **\$1.50**

BLOUSES, in all sizes. They come in heavy ducks, crashes and twilled materials in both dark colors and fancy striped effects. Some are finished with fancy collars and are our regular \$1.50 value. Special sale price, **75c**

ODD SUITS, in the sailor style, in sizes from 5 to 6 years, and to be had in fancy drills and crashes. These are our regular \$2 grade, and there are only a few dozen garments to be sold. Regular \$2 grade for **\$1.00**

BUSTER BROWN SUITS in sizes for boys from 5 to 7 years old. They are to be had in prints and crashes in a choice assortment of colors and patterns. All are our regular \$1.00 grade and to-day and Monday we will sell them at **50c**

David Spencer, Limited A NEW REVERIE 25c "After Vespas" a twilight meditation

To-night at 7.30 \$1 Dressing Jackets Will be Sold at 45c each

SUCH a variety of colors and patterns are here to choose from that it is impossible for us to describe them all. With such a low price a description shouldn't be necessary. The fact is that if it is a Dressing Jacket it should be worth far more than the price we are asking for them. The materials alone are worth the price of the finished garment.

Some are in light colors with small patterns, some are plain white or pale shades trimmed with bands of material with a pattern in light or dark colors. A few have fancy collars piped with colored material. Some are in Paisley designed materials. From this assortment choosing should be an easy matter.

At 7.30 p.m., regular \$1.00 values to clear at 45c.

dress for parties and other occasions during the winter. Some have the Dutch and others the round neck, many have lace yokes, and all are trimmed with tucks, lace-insertion, embroidery insertions, laces, etc. They have a normal waist and are finished with pleated or gathered skirts. It's not often that you see such dainty dresses as these marked so low, and there is sure to be a strong demand for them.

A DAINY LITTLE STYLE in fine lawn and made in the pleated Buster style. The front is trimmed with a panel of pin tucking right down the centre and wide box pleats on either side. It has a handsome square yoke outlined with embroidery, and the sleeves are the short set-in style. In sizes for girls from 2 to 6 years old. They are a bargain even at their regular price \$1.75, but to effect a rapid clearance we will sell them to-night at **95c**

A HANDSOME STYLE, made of spotted Swiss muslin and trimmed in an elaborate manner with embroidery. There is a wide panel of embroidered lace down the centre of the garment, and the waist band matches the panel but is narrower. The embroidery trimming over the shoulder gives to the garment a pleasing surprise effect. Has short sleeves, and daintily embroidered cuffs. Only small sizes to be had in this line. Easily worth \$1.75. To-night at 7.30 only **95c**

Handkerchiefs and Dutch Collars, Values to \$1 for 25c To-day

ALL new styles, are made of fancy muslins of excellent quality and are trimmed with lace. An assortment of patterns to choose from. The offer stands good just as long as the goods will hold out, and there are about 20 dozen to be sold, so early shopping is advisable.

\$15 to \$20 Suits for Young Men to be Cleared at \$11.75

WHAT better opportunity could you wish for? Here are the very latest and most stylish models that have been placed on the market this season, and the price that we are asking for them is far below the normal. Fancy tweeds and worsteds are the materials while the colors include all shades of browns, greys, greens, etc., mostly in striped effects.

All are the popular semi-fitting styles and have long lapels. Some have a two-button fastening while others have three buttons. The tailoring is all that you can wish for, and will stand the closest examination.

We invite you to see the display of models in the view street windows, but if you don't find just what you like best shown there enquire for it in the department; the chances are that we have it.

Sizes 32 to 36. This offer is an excellent combination of QUALITY WITH ECONOMY.

Big Book Bargains

\$14.75 is all you will have to pay tonight for a regular \$20 to \$30 Men's Suit, at J. N. Harvey, Ltd., 614 Yates Street.

St. Andrew's Presbyterian Church.—In the absence of the Rev. W. L. Clay, who is at present enjoying a well-earned holiday, the pulpit of St. Andrew's will be occupied both morning and evening to-morrow by the Rev. Prof. A. R. McEwen, D.D., professor of church history in the United Free Church College, Edinburgh, Scotland. Prof. McEwen is one of the most attractive lecturers in any of the colleges of the Old Land, and will be heard with great interest to-morrow. He will be remembered by many former residents of Glasgow, as pastor of Clarendon U. P. (now U. F.) church, one of the largest and most representative churches in the city of Glasgow.

Fire Brigade Busy.—Four fire calls were answered yesterday by the fire department and each fire was extinguished before damage to any serious extent was done. During the afternoon two calls were sent in for grass fires on the Indian reserve, and at the corner of Russell and Wilson streets. Both were started by sparks from the E. & N. engine. They were soon extinguished. Shortly before 6 o'clock a burning lumber pile at the mill of James Leith & Sons, caused an alarm to be sent in. Several buckets of water thrown on the fire by the time the brigade arrived, and on return to the station there was an immediate call to a fire at Rock Bay bridge, where sparks had fired the planks of the bridge. The blaze caused but short work.

Police Court Cases.—Pleading that she had lost her purse while on a business trip to Victoria, and weeping as she admitted her guilt to a charge of vagrancy read against her in the police court this morning, a woman named Mrs. Adeline Maloney, said necessity had driven her to the extremity of immorality. She was allowed an opportunity to return to Vancouver, and the police will see that she leaves to-day on the C. P. R. boat. She wore several valuable rings and was well dressed. When arrested she was at an hotel, where the prosecution alleged she was enticing men. Pleading guilty to working a horse suffering from sore shoulders, raw sores on the back and knees, a man named A. Matthews paid a fine of \$10, and Amos H. Hall, on a charge of petty theft, was remanded until Wednesday, having pleaded not guilty. H. A. Farr and W. S. Searle, charged with assaulting W. J. Taylor were remanded until Monday.

Hospital Directors.—The board of directors of the Royal Jubilee hospital last evening held the first meeting since their appointment to office, considerable business being discussed. Dr. Hasell made a request for three additional beds for the tuberculosis ward, this being referred to the house committee to attend to. A message of condolence, on the motion of R. S. Day, seconded by Mr. Wilson, was sent to the relatives of the late H. Dallas Heincken, who, for over twenty years had been an active member of the board of directors, and had shown keen interest in the work. The following composed the board: Elective members, Messrs. Simon Leiser, J. A. Mara, and A. Wilson and Mrs. Rhodes. Directors, Messrs. D. E. Campbell, Leonard Tait, A. Wright, A. L. Kilpatrick and R. S. Day. The French Benevolent Mutual Society is represented by Messrs. W. Mabie, G. H. Brown, and Thomas Sholt.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, July 20, 1887.

Changes are to be made in the staff of the customs house. Mr. A. R. Milne, who is appraiser for this city and a very obliging official, is assuming control of the examining room. Mr. Fry's duties will be strictly those of surveyor of customs. Mr. Hunter will attend entirely to the shipping department.

The Salvation army continues its attack upon the devil every evening, beginning at the corner of Yates and Government streets and winding up at the Theatre Comique. The soldiers, who are glad to see, are treated with every respect and consideration by the crowd that gathers through curiosity to hear them. Thus far the ranks (numbering three) have not been augmented by new recruits.

Mr. Alf. T. Langley, of Victoria, stands at the head of the list of those who passed the recent examinations at the Ontario College of Pharmacy.

It is now certain that the total sum contributed to the Nanaimo relief fund in aid of the sufferers by the terrible accident of last May will be about \$35,000. It has been decided that the aid given to widows shall be \$12 per month; each child under five years, \$4 per month, each child over five and under ten \$6 per month, and each child over ten and under fourteen \$5 per month. All allowances to widows are to cease when they remarry and allowances to children to cease when they reach fourteen years of age. It is estimated the fund will be sufficient to pay the allowances for nearly seven years.

Alterations at Centennial Church.—When alterations have been completed at the Centennial Methodist church and it is reopened, the trustees will invite Rev. Dr. Scott, the new pastor of the Metropolitan church, to preach there.

E. & N. Railway.—The superintendent of the E. & N. railway stated this morning that the company had received permission from the government to make temporary use of space between Point Ellice bridge and Russell street for the purpose of unloading cars of coal, timber and wood on the reserve, pending the final settling of the terminal arrangements.

Carnegie Library.—Among the new books added to the library shelves to-day a new feature is a trio of volumes which are up-to-date and important treatises on the subject of cement and concrete. Their addition is but another example of the manner in which the present librarian is trying to make the Carnegie library lending department a representative collection.

Music in Park.—The Fifth Regiment band will give one of their enjoyable concerts at Beacon Hill Park to-morrow afternoon commencing at 3 o'clock. The programme as arranged is as follows: March, "Le Prophete"; overture, "Zampa"; trombone solo, "Out on the Deep"; Bandman Miller; selection, "Un Ballo"; Gavotti, "Sultana"; selection, "The Quaker Girl"; waltz, "Il Bacio"; selection, "Traviata"; march, "Tannhauser"; God Save the King.

The Weather.—The very enjoyable weather that the city is experiencing after the rather trying heat of Wednesday is due to the cool breezes from the southwest which are moderating the temperature to a very great extent. These southwest breezes are caused by the heating up of the interior which causes the air there to become rarer and lighter, and inrush of cooler air from the sea. One of the hottest parts of Canada at the present time is the Kootenay district, where the thermometer rose this morning to over ninety degrees in the shade. All the other places along the coast are experiencing much cooler conditions, and especially is this noticeable at Portland where the temperature is at least a dozen degrees lower than in the early part of this present week.

An Article on Victoria.—C. H. Rust, the city engineer, recently received a communication from the editor of the "Contract Record and Engineering Review," asking to be put in touch with some publicity agency in the city in order to get information and news of this city for insertion in his paper which has a large circulation, not only in the Dominion but also in the States and in the United Kingdom. Mr. Rust passed the letter on to Mr. McGaffey, the secretary of the Vancouver Island Development League, and the latter has supplied the applicant with the necessary information and with a fine selection of photographs of Victoria and its environs.

Condemnation Proceedings.—A date will have to be set on Monday for the owners of property proposed to be condemned under the new proceedings to put their case before the board of health. There are 55 under review, principally stables.

Paving and Tree Protection.—In laying the permanent paving on Government street the small trees have been protected, as an undoubted attraction to the business section of the street now under consideration, and in places where they will not afford any obstruction to traffic.

Grain Export Here.—G. R. Crowe, the well-known grain broker, was in the city this morning on business from Winnipeg. He is associated with a number of commercial undertakings having business connections here, including the Royal Bank of Canada, of which he is a director.

Oak Bay Permits.—Permits have been taken out by the following for buildings within the limits of the Oak Bay municipality: C. B. Armstrong, for an eight-roomed frame dwelling house on Cranmore street, for which C. Butterfield is the architect and G. A. Foden, the builder; F. C. Wolfenden, for a five-roomed house on Cranmore street, costing \$2,644; and J. R. Birves & Co., for a six-roomed dwelling on Oliver street, costing \$2,590. For the last mentioned structure H. J. Stewart is the architect and contractor.

Superintendent Returns.—H. E. Beasley, the superintendent of the E. & N. railway, has just returned from a short stay on the mainland. The superintendent has had the misfortune to dislocate his ankle and is confined to his room. Mr. Beasley stated that he had just had a letter from his son, Hal, now representing this province in the Olympic games at Stockholm, in which he says that he is having a very good time and is leaving for home on July 25.

Christian Endeavor.—The Christian Endeavor Union of Victoria will hold a moonlight excursion on the evening of Thursday, July 25. The Princess Royal has been chartered for the occasion and will leave the C. P. R. dock at 7:30 p.m., cruising around the straits for about three hours, returning at 10:30. A good crowd is assured and it only remains for the weather man to be in good humor and the affair will be one of the great successes of the season. S. A. Bantley's orchestra will be present, so that the musical end will be well looked after. The committee are hard at work and everything points to a very successful night.

Her Eightieth Birthday.—Mrs. Clyde, of 1320 Johnson street, received yesterday afternoon in honor of her mother, Mrs. McNaughton, who celebrated her eightieth birthday, about 50 friends being present to offer their congratulations and hearty good wishes to the octogenarian, who smilingly greeted each person as they entered. The drawing-room was prettily decorated with sweet peas, the dining-room, where Mrs. McNaughton, Jr., and Mrs. Ward served tea, looked bright with big vases of nasturtiums. During the afternoon messages of congratulation were received from Mrs. Vipond and Mrs. Howison, two old friends who have some time since passed the octogenarian mark, and who were unable to be present, while Mrs. Wilby, herself well over four score years, was present in person to express her congratulations. Among others present were a number of Mrs. McNaughton's descendants, including her great-granddaughter, Dorothy McNaughton, who was not among the least favored of the visitors.

Clevedale Wedding.—A very pretty wedding was celebrated at St. Mark's church, Clevedale, last Tuesday, when Miss Marion Elizabeth, daughter of Mr. and Mrs. W. H. Smith, was united in marriage to Mr. George Hughes, Ven. Archdeacon Scriven performing the ceremony. The bride looked beautiful in a dress of cream satin with veil and orange blossoms, and carried a bouquet of bride roses and lilies of the valley. The bridesmaids, Miss Bernice Peachey and Miss Carrie Smith, a sister of the bride, wore pretty cream voile frocks with large picture hats trimmed in pink and white, and carried bouquets of pink carnations. Miss Frances Whillans made a pretty flower girl, and Mr. Lance J. Thompson acted as best man. The bridegroom's present to the bridesmaids were, to one pearl earrings, to the other a pearl brooch, the best man receiving a pearl pin. Mr. and Mrs. Hughes, who received a large number of handsome presents, are spending their honeymoon in the Sound cities, and on their return will make their home on Emma street, Burnside Road.

An IMPROMPTU
DANCE

It is possible at any time to the owner of an Edison Phonograph. No need to wait until someone who can play comes along; no need to deprive anyone of the pleasure of dancing every dance. Just wind up the Edison and put on one of the special long-playing Amberol Records, and—"on with the dance."

Small wonder the owner of one of these splendid phonographs is popular among friends. But it must be an Edison to be really 100 per cent efficient. The Edison is the instrument with just the right volume of sound for the home. Even a full-band record is played on this machine with a volume pleasing to the ear. Yet no manipulation by the operator is needed; phonograph and reproducer are both always just right.

Make Your Own Records
On the Edison

This is a special advantage of this great Phonograph. There is a unique satisfaction about making your own records. You talk or sing into a horn; you hear and see the sapphire cutting into the wax, then you put on a reproducer and your voice comes back to you.

NO NEEDS TO CHANGE, NO MANIPULATING
JUST SMOOTH, RICH, EASY TONE ALL THE TIME
It's the Edison You Want. Come and Hear it Demonstrated.

WIRELESS BUSINESS SHOWS BIG INCREASE

Is Five Times Greater Now Than Two Years Ago—Clear Site for New Station

For some time after the wireless stations in British Columbia commenced operations in June, 1910, the operators had a comparatively easy time attending to the business which passed from station to station. Now, however, it is altogether different and the men who sit in the keys are forced to keep their machinery in operation almost the entire day and night in order to keep things clear and everything running smoothly.

According to an announcement made by one of the officials of the radio telegraph office the business is at present five times as large as it was when the stations were first opened. So many steamers have been equipped lately with wireless that the land stations are taxed to their utmost, and at times have difficulty in handling all the messages. As contracts are being let daily for the equipping of other coasting and ocean-going vessels with wireless it is evident that in the near future the stations will have rather a hard time in receiving and answering the many calls and messages from the ships.

Work on the new wireless station which is to be constructed at Alert Bay is progressing favorably and the site has been practically cleared. Material for the construction of the house for the operator and the big pole which will support the antenna. It is expected that the new station will be ready to receive messages some time in the fall of this year.

Quebec—Arrived: Empress of Britain, Liverpool; Carvona, Newcastle.

COAL TO FRISCO.

Vancouver, July 19.—The steamer Gifford sailed at 4 a. m. for Nanaimo, where she will load a full cargo of coal for San Francisco. After discharging this she will load a cargo of redwood at a California port for Sydney and Newcastle with the option of Melbourne. The freight rate secured by the Gifford for this trip is 70s. per thousand feet and this is a very high figure. It stands as an example of the manner in which freight rates have gone for two years ago the rate for such a voyage was 22s. 6d. Since then shipowning has proved lucrative and the upward tendency of freight is still noticeable.

ANTIOCHUS TO TAKE FIRST CARGO OF OIL

Will Come Here on Tuesday to Load—Is Also Taking Big Shipment of Lumber

This season the big Blue Funnel liner Antiochus, Capt. Stewart, will have the honor of taking out to the United Kingdom the first shipment of whale oil. She is expected to arrive here from Vancouver, after bunkering at Comox, on Tuesday and will be about two days taking on 2,500 barrels of oil. A large amount of the valuable product of the whale has been brought to Victoria from the different stations and all the outgoing Holt steamships for the next three or four months will take out big cargoes of oil.

Besides the whale oil the Antiochus will also load 450,000 feet of lumber, which is being shipped by the Canadian-Puget Sound Company. It will take her some time to stow this cargo aboard and it is not expected that she will get away for Sound ports to complete her outward cargo until late next week. This will be one of the biggest cargoes taken out from Victoria by a Holt steamship for some months.

Next week will not be exceptionally heavy in the shipping of this port. Besides the Antiochus, which will return to load, the Canadian-Australian liner Marama, Capt. Morrissey, will dock on Tuesday at noon; the Canada Maru, Capt. Hori, of the Osaka fleet, will arrive from Yokohama on Thursday; the Politician, of the Harrison line, is expected at the end of the week, and the R. M. S. Empress of India, Capt. Fortnam, and the Osaka liner Chicago Maru, will sail on Wednesday for the Far East. The two steamships which are sailing are taking large cargoes of general freight and also good passenger lists.

Last night the Grand Trunk Pacific steamer Prince George, Capt. McKenna, was reported by wireless in Pithul Sound. She will dock here from Prince Rupert to-morrow evening.

NEWS OF THE SEVEN SEAS

GASOLINE ENGINES FOR THREE SEALERS

Emma H. Now Being Equipped—Pescawha and Vera Are Both Waiting for Ways

Some time next month the three sealers Emma H., Pescawha and Vera are to be equipped with gasoline engines. The Emma H. will be ready to enter the fishing industry and will fish for the Canadian Fishing Company, of Vancouver. At present the Emma H. is on Tropic's ways having her hull painted and an arch fixed in her stern in which the motor of a 110 horse-power engine will turn. The masts have also been taken out of the vessel and they will be replaced in the fall. The Emma when fishing will not carry as much sail as when she was a sealer and her auxiliary engine will be used considerably.

After the Emma had been floated off the ways the schooner Pescawha, which has also been purchased by the Canadian Fishing Company, will be hauled out to undergo similar alterations. She is to have a big gasoline engine placed in her and her spread of canvas will also be cut down considerably. The Pescawha is much larger than the Emma and is to have a more powerful engine.

Very shortly the schooner Vera, which was secured by Dr. Smith, of Ottawa, will be hauled out to be overhauled and will have a gasoline engine installed. The new owner will take the Vera to the Arctic on a two years' exploration trip. He will visit the practically unexplored lands of Baffin land.

The local shipyards are having quite a time fixing up the old sealing schooners. The Victoria Machinery Depot and Tropic's have their ways reserved for some time ahead.

ECHO OF SPOKANE DISASTER.

Cincinnati Lady Starts Action for \$22,435.75 as Damages Resulting From Wreck.

Seattle, July 19.—Mrs. Sarah Dorn, of Cincinnati, Ohio, a passenger on the steamship Spokane, when she sunk June, 1911, yesterday commenced suits in the Superior court against the Pacific Coast Steamship Company, aggregating \$22,435.75 for various forms of damage resulting from the wreck. It is charged that the company's officers were negligent in taking the ship through Seymour Narrows at half tide, when the channel was filled with treacherous tide rips and highly dangerous. Mrs. Dorn paid \$125 for a round-trip ticket from Seattle to Skagway, as well as a judgment for \$20,000 for suffering, mental anguish and a case of bronchitis in the cold water while she clung to the ship before being rescued. Also she asks for \$2,310.75 for loss of clothing and small articles.

ALASKA FISHING GOOD.

Much Salmon Is Being Packed at Bristol Bay—Season on Sound Is Backward.

Seattle, July 20.—Cable advice just received in Seattle state that the salmon canners operating in the Bristol Bay district are having a good season, and that all indications point to a large pack of fish. The reports so far received have been meagre, but according to brokers the season's output will be very large. The season on Puget Sound is backward. Fish are not running in any numbers. Most packers now look for a light pack. The fishermen's strike in Alaska Bay district are having a good season, and still hampering operations. The fishermen ask 20 cents for red salmon, or about twice as much as a year ago. New salmon is arriving from the north, but is in slow demand. The demand for shoal stock is not very brisk yet, although the weather all over the United States has for some time been favorable.

MORNING STEAMER for Seattle and Tacoma

SEALER JESSIE IN FISHING BUSINESS

OUT ON FIRST CRUISE IN ABOUT TWO WEEKS

Gasoline Engine to Be Installed in Her—To Operate With Ysabel May

Another of the private owner's sealing schooners is to enter the halibut fishing business according to an announcement which has just been made public. The Jessie, one of the best-known sealers registered at this port, is to operate off the west coast of Vancouver Island in conjunction with the Ysabel May. The owners expect to have the Jessie ready for her new work in about fifteen days.

Like the Ysabel May the Jessie is to have auxiliary power and work on installing a 110 horse-power gasoline engine will commence immediately. The schooner was only recently hauled out on the Victoria Machinery Depot ways and given a thorough overhauling. The owners of the Ysabel May have met with such success in the fishing business that they have decided to send the Jessie to sea. Ever since the sealing treaty was passed the Jessie has been lying in the upper harbor. She is well adapted for use in the fishing business and should report with good catches on every trip.

The two schooners, Ida M. and Victoria, which were purchased at the auction sale held a short time ago, have been on the Victoria Machinery Depot ways for some days. The owners are placing the sailers in seaworthy condition and when this work is finished they will be offered for sale. When hauled out on the ways an examination showed that the hulls of the vessels are still sound and that with very few repairs they could be placed in as good condition as the day they were launched.

It is expected that the schooner Ysabel May, Capt. Geo. Heater, will return to this port some time this afternoon after a cruise off the west coast of the island. On her last trip the May has come in with big catches, the fine weather off the coast permitted her to launch her dories almost every day.

EXCURSION ON ROYAL.

On Thursday evening next the C. P. R. steamer Princess Royal, Capt. Gilchrist, will leave port on a moonlight excursion through the Gulf Islands. The outing is being arranged by the Christian Endeavor Society of this city. The Royal will leave the C. P. R. docks about 8 o'clock, and will return about 11 o'clock. It is expected that she will take a large party of excursionists.

HON. F. COCHRANE TALKS TO BOARD

REFERS TO BRIDGING OF SEYMOUR NARROWS

He Says All Roads Should
Have Running Rights
Over It

Upon his arrival in the city yesterday afternoon, Hon. Frank Cochrane, minister of railways and canals in the Federal government, was taken for a motor car ride, along the harbor shore, after which he had a private conference with the council of the board of trade. Following this conference a public session was held, in which addresses on the requirements of Victoria were made by Messrs. Shalleross, Boggs, Cuthbert and Lugin. The speech of the minister of railways and canals was as follows:

"I much appreciate the welcome given me," he said, "but do not think that I am the cause of this gathering here. It is rather that you are alive to the conditions and want to make use of any legitimate means by which you can forward your interests here. I have enjoyed my trip round the city seeing the proposed extensions which you feel the federal government has a right to look after and to build, and I may say that I have not seen anything that I think you are not entitled to."

Whilst he had no criticisms to make regarding his predecessors in office he threw out the suggestion that the harbor of the country had not been developed. It was not the want of money, it was the want of confidence in the country.

"I have seen the Seymour Narrows. Let me say that a bridge should be an independent affair. All roads should have access to it," declared the minister.

He instanced the trouble that had arisen at Montreal, and the way it had been smoothed out by the harbor board of three men in five years.

"I am glad that you are going to establish an independent harbor board, composed of men who will work for the best interests of the people and not for themselves," he said.

Realizes Need of Bridge.

"I know the importance the bridge over the Narrows has to this country, and I must say that I regret my time here is so limited, as I would like to look over some of the natural resources of the island. I have been deeply impressed on this, my first visit to the province.

"I feel this, and I hope it is the wish of every member of the government that it is our duty not to be afraid of

spending money. I feel that this is the greatest country on the face of the globe, and, more, that this is our country, and it is going to take all our energies, all our wealth, to keep up with the development of it.

"After having been through every province in Canada, the province that has appealed to me most is British Columbia, and it is here I would come were I to leave Ontario. The prairie has no appeal to me, because I could not live without trees and water. They are the greatest companions there are, next to a human being."

Mr. Cochrane left for Vancouver last night. He is going to make an overland trip to Hudson Bay as soon as he returns East in order to view the route of the new Hudson Bay railway. Mr. Cochrane is accompanied by his private secretary, Geo. W. Yates.

A CORRECTION.

To the Editor.—I notice in a report published in Friday's paper that my name was mentioned as a member of the grocers' picnic committee. This must be a mistake, as I have never had any connection with the grocers' combine, or association, as they prefer to call it.

OWEN COPAS.
Victoria, B. C., July 20, 1912.

TALKING ABOUT GIANTS BEING ONE MAN TEAM

"Talk about the Giants being a one-man team," says Frank Bancroft, "few people realized the complete domination of John McGraw. John T. Brush is as completely under his control as Josh Devore or Beals Becker. Said I to Brush one day: 'Didn't it ever occur to you that certain things might be done differently in handling games?' 'Only once,' said Mr. Brush. 'That was all. I had an idea one day. It seemed to me that a slight change in tactics might be a winner. I said so to McGraw. Well,' said McGraw, 'it doesn't look that way to me, and it won't be done.' And I never ventured to say a word again."

B. C. LACROSSE LEAGUE WANTS LALLY FOR REFEREE

Cornwall, Ont., July 20.—Joe Lally has received a wire from C. A. Welch, of New Westminster, asking him to name his own figure to go west to referee the games in the British Columbia Lacrosse League from July 27th to September 14th inclusive. He has recommended Jim Kavanaugh, of the Shamrocks, for the position, but he has not heard anything from New Westminster.

The Red Arrow Store offers you the opportunity of selecting from \$20 to \$30 suits at \$14.75. J. N. Harvey, Ltd., 614 Yates St.

BUSH FIRES START ROUND SOOKE LAKE

High Wind Drives Blaze Up
Mountain Where Flames
Burn for Two Hours

Fire raging through the bush and trees on either side of the new road built by the Westholme Lumber Company as part of the Sooke waterworks contract, stopped traffic over the road yesterday afternoon for two hours, and caused the assembling of the whole of the Westholme Company's force of men at the lake end of the contract for the purpose of fighting the fire. The fire was caused by a high wind which sprang up suddenly about 1:30 o'clock, distributing sparks into the dry underbrush and up the hill on the west side of the new road.

Superintendent Watson, of the Westholme company, went up the road in an automobile to send men down to fight the fire, but by the time the help arrived dense volumes of smoke were ascending into the high trees across the road, and, fanned by a strong wind, burning brush was blown into the tree tops, which became ignited and burned fiercely. The flames and smoke rendered the road impassable, and the strong wind carrying the fire made it impossible for the fire fighters to suppress the blaze or to prevent it from travelling up the mountain.

After burning fiercely for two hours the flames burned themselves out, having been prevented from spreading by the sudden stopping of the wind. The superintendent put a large force of the men working on the lake to extinguish the smouldering fires. The men followed the path of the fire, beating out the flames and preventing a recurrence of the fire.

Dense smoke seen yesterday morning over the Sooke hills from Victoria was partly caused by fires burning higher up the lake and on the mountain side. Owing to the underbrush and the tree tops being mostly green there is more smoke caused by these fires than flame. Much of the smoke occurs from the burning piles on the clearings made by the contractors, who haul the stumps to a common pile and destroy them.

GOOD TEMPLARS' MEETING.

The usual weekly meeting of this lodge was held in the Friends' hall, Courtney street, last evening. Brother R. Anderson, chief templar presiding. There was one readmission to the order, and the routine business being transacted in record time, the lodge was closed in usual form, and declared open after 9 p. m. Sisters L. Hird and M. Bailey were responsible for the programme for the rest of the evening, and found no difficulty in drawing out the talented members of the lodge, several brothers giving vocal selections.

Sister Mrs. Pargiter, whom the lodge has had the pleasure of hearing before, sang "Swanee River," and Sister Hird gave a Scotch recitation. A hearty vote of thanks was accorded the two sisters at the close of the programme for the pleasure contributed for the evening. There will be no meetings next Friday, arrangements being under way for a grand concert to be given instead, under the auspices of this lodge. The committee trust the public will respond liberally towards making the concert a success, as the tickets are placed at the low price of 25c. each, which will include light refreshments.

MANY ICEBERGS SIGHTED BY LINERS

Mauretania Forced to Change
Course on Voyage to
New York

New York, July 20.—Icebergs and icefields were encountered by the steamships Mauretania and Adriatic, which arrived from Liverpool yesterday. The largest berg was sighted by the Adriatic on Wednesday afternoon within a few hours steaming distance from the spot where the Titanic went down in April. It was variously estimated at from 300 to 1,000 feet in length and from 100 to 200 feet in height. On the same day the Mauretania was obliged to steam to the southward to escape an icefield.

HOTEL ROBBER, IN CUSTODY.

San Diego, Cal., July 20.—A pear-shaped brooch, set with diamonds, together with other jewels, believed to be a portion of the DeSaba jewels stolen from the Palace hotel at San Francisco last winter, are in the possession of the officers who left here for Oakland yesterday, having in charge S. R. Riese, alias Yale. The detectives, with him are Edmund Leach and Joseph Russ, of New York, and Detective W. H. Berton, representing the Pacific Coast Hotel Men's Association. Riese has confessed to his part in the \$85,000 bond theft in New York, and is in hope of receiving immunity. The police here said to-day that he had admitted complicity in several hotel jewel robberies.

STORY OF REVOLT DENIED.

Madrid, July 20.—The correspondent of the Universe published at Orenza, Spain, has sent a dispatch to this city, saying that a revolution has broken out at Lisbon and Oporto in Portugal. The news was received at Orenza by way of Verin, a town in Spain near the Portuguese border. Senor Barroso, the Spanish minister of the interior, this afternoon, declared without foundation the statement that a revolution has broken out at Lisbon and Oporto.

TRIED TO END LIFE.

Seattle Man Who Cut His Throat Will Recover.

Seattle, Wash., July 20.—In an attempt to end his life, three days ago, Simon Peterson, 32 years old, cut his throat, partially severing the windpipe, and since that time until midnight last night, in a semi-conscious condition, breathing through the rash in his throat. Last night he was taken to the

city hospital, where it was discovered that the wound had begun to heal, probably preventing him from bleeding to death.

Peterson registered at a hotel on Weller street, a week ago. Thursday night he left his room for a few minutes to stand in the doorway. A handkerchief was tied about his throat. The proprietor went to his room and found blood on the bedding and carpet, breathing through the rash in his throat. An effort was made to locate a policeman, but none could be found, so

the matter was dropped. Last night groans were heard from Peterson's room and an investigation resulted in finding him in a weakened condition. He was taken to the city hospital. Physicians say he will live.

Our Big True Economy Sale is now on. J. N. Harvey, Ltd., 614 Yates St.

To carry out "city beautiful" projects, 79 cities in the United States have plans calling for \$10,000,000 expenditures.

"Look, Grandpa, There's the Name."

That name says that little boys and girls can eat all they want without injuring their health. It is stamped on every genuine Maple Bud.

It says that they are nourishing as well as delicious—that only pure chocolate, pure milk and pure sugar have been used. It says that the peculiar delicious flavor—that rich creamy Maple Bud flavor—is there.

The name "Cowan" has stood for years as a standard of purity in Cocoa and Chocolate products. It stands for a big spotless factory where skillful workmen and modern machines are grinding and blending the choicest cocoa beans obtainable.

Maple Buds come only from the Cowan factory. They are the purest form in which Milk Chocolate is produced. The name "Cowan" identifies them.

Is one of the beautiful "Objets Des Arts" from the Old World that this store is now displaying. As souvenirs, as dainty summer gifts, these pieces have no equal. There is a direct advantage in buying here, because we import these goods direct. You are therefore assured of genuineness and reasonable price.

Come and see this display. You will be delighted with the daintily worked enamelware in sterling silver, embellished with floral designs. For instance, vanity boxes in the beautiful lacquer patterns, enamelled watches encrusted with exqui-

site stones and delicately enamelled chains to support them. Small enamelled pieces of sterling silver overlaid with some of the finest enamel work we have ever seen are also in this display and there are myriad other odd pieces, all new, all beautiful and all really good.

The watch with the sapphire stem is alone worth seeing, and you will be delighted with the many other beautiful things. Why not come right away?

Francisco, have arrived in the city,
and are staying at the Empress hotel.

Dr. S. Bonnell, former mayor of
Fernie, has returned to Victoria, where
he has been a frequent visitor during
the past winter.

W. M. Walker, manager of the Dar-
lingford branch of the Bank of B. N.
A., arrived Thursday on a visit to his
parents, Mr. and Mrs. W. Walker, 1250
Oak Bay avenue.

Mrs. John Nelson, of Vancouver, and
her two daughters are visiting Mrs.
Nelson's sister, Mrs. Thos. Finch, of
Linden avenue. They will spend a
week here renewing old acquaintances.

The following names of British Co-
lumbians appear upon the register at
the office of the Canadian high com-
missioner during the last week: Mr.
and Mrs. W. A. Clarke, the Misses
Clark, Mr. J. F. Malkin, Mr. W. E.
Oliver, Mr. and Mrs. Alexander Be-
thune, the Misses Bethune, Mr. and
Mrs. E. J. Enthoven, Mr. and Mrs.
J. N. Bond, Mr. and Mrs. Francis M.
Robertson, of Vancouver; Mr. Jason
Gurney, Mr. J. L. Hirsch, Nelson; Mr.
T. J. Lee, Mr. Thomas R. Smith, Mr.
William Cane, Victoria.

A quiet home wedding was solemn-
ized at 3 o'clock on Wednesday even-
ing at 1162 Bayview street, when Miss
Ella, daughter of Mr. and Mrs. R.
Scarlet, formerly of Huntville, Ont.,
became the bride of Mr. George W.
Lillie, of Victoria, formerly of London,
Ont., says the Vancouver Province.

The bride, who was given away by her
father, was costumed in her travelling
suit, and carried a bouquet of sweet
peas and baby's breath, and the bridal
party stood in an alcove of the draw-
ing-room banked with palms and flow-
ers during the celebration of the cere-
mony by Rev. Dr. Whittington. Mr.
Howard Lillie, the groom's brother,
acted as best man. A reception was
held after the service, only the near

friends of the bride and groom being
present, and later Mr. and Mrs. Lillie
left for Seattle and Portland, where
they will spend a short honeymoon be-
fore going to their new home in Vic-
toria. A profusion of white flowers
adorned the rooms and on the table,
from which a buffet supper was served,
white flowers were also used most ef-
fectively with ferns. A large number
of handsome gifts were received by the
young couple from friends near and
far.

The importance of the office of Cana-
dian commissioner in Paris, filled by
Dr. Philippe Roy, has considerably in-
creased lately owing to the ever-grow-
ing number of Canadians who visit
Paris, and the closer connection be-
tween the two countries, which it is
his function to establish. The social
side of an agent-general's work is not
by any means the least important, and
Canadians who return from Paris,
comment on the charming way in
which Mme. Roy, who was Miss Helen
Young, of Edmonton, makes their so-
journ in the French capital enjoyable.
At her receptions, which are held on
Wednesdays, one may meet some of
the most delightful people in Paris.

TAX RATE TO BE SET ON MONDAY

HOW ASSESSMENT WAS DIVIDED LAST YEAR

Pandora Avenue Case Continues Before Arbitrator—Bids for Police Quarters

Among important items which will engage the city council on Monday will be the by-law to regulate the tax rate for 1912, which can now be done with the work of the court of revision completed. Last year the rates, which it is improbable will be varied, will be: General purposes, 2.75 mills on the dollar.

Interest and sinking fund, 7.50 mills on the dollar.

Board of health and hospital purposes, one mill.

School purposes, five mills.

School purposes, interest and sinking fund, three quarters of a mill.

Last year the taxes were due on September 15, with one-sixth discount for payment by October 31.

A number of local improvement motions have to be introduced at this meeting.

This morning at the city hall the hearing was resumed in the arbitration proceedings of H. J. Saunders arising out of the widening of Pandora avenue, in which the sum of \$23,600 is sought for damages for twenty feet taken off the front, and compensation for loss of revenue from a business block which was to have been erected on the spot.

This morning the land purchasing agent, A. G. Harrison, and John Dean gave evidence, and the testimony of an expert character was completed. F. A. McDiarmid is acting for Mr. Saunders, and the city is represented by City Solicitor Robertson.

Three bids have been received for the alteration of the market building and adaptation of the western portion for police purposes, and these will be opened on Monday at the meeting.

The sum of \$30,000 is to be spent on this building for police quarters and court room, and this is about as far as the relief of the pressure on accommodation at the city hall can go this year, now that the citizens have turned down the civic centre proposal by a narrow majority.

Regular \$1.25, \$1.50 shirts, best of patterns. Sale price, 95c. J. N. Harvey, Ltd., 514 Yates Street.

EDUCATIONAL

HEADLIGHTS

Bound for Holberg and way ports the C. P. R. steamer Tees, Capt. Gilliam, left port last night with a large number of passengers and a good cargo of general freight.

The steamer Rupert City, Captain Stewart, has reported by wireless that she will reach Ladysmith on Sunday after her first trip under her new owners, the Marine Transportation Co. She has been to Unalaska with coal and met with very bad weather on the northward run. She is to load another coal cargo at Ladysmith for Alaska.

The extra steamer which will load at Vancouver in October for the Union Steamship Company, of New Zealand, will be named on July 31, but there is a belief current that she will be the Weir steamer Inveric, which is known here. The Union Company has secured this extra boat in order to relieve the pressure on the regular liners. Last year the steamer Kish was the chartered boat.

THE GUNHILD SPEED.

Local Owners Protest Against Criticisms of Speed of Fishery Protection Boat.

Local owners who are interested in the Gunhild, recently chartered by the Naval Service for fishery protection work off the west coast, indignantly deny the allegations that the boat, which cost \$22,000 to build, is unfitted for the service for which she has been engaged for two months. The report published states that the Gunhild was only equal to nine knots an hour, while it is now said she has been tested to 13.6, and can readily do 12. In fact, the owners declare, she overhauled a fast American halibut boat yesterday, and examined her just when she was on the edge of territorial waters in the Straits.

The Gunhild was built in 1906, and constructed under the personal supervision of her then owner. She is 61 feet long at the water line, and 85 over all, with 12.7 beam, and fitted with triple expansion engines, with Roberts' water tube boilers, and these have been tested up to 185 pounds pressure. Her nominal horse-power is 104.

RUPERT AGAIN BEATS ALICE.

G. T. P. Steamer Left Here Eight Minutes Behind But Reached Vancouver Three Minutes Ahead.

All doubt as to whether the Grand Pacific steamer Prince Rupert, Capt. Barney Johnson, is faster than the C. P. R. steamer Princess Alice, Capt. Locke, was settled on Thursday morning last. The Rupert is scheduled to sail from here at 10 o'clock, but owing to heavy shipment of Haddon and Prince Rupert freight having to be taken on here it was 10.50 before she pulled out. The Alice got away eight minutes ahead of the Rupert. The Prince Rupert was using but four of her six boilers, and although the Alice was not working herself to the limit the big three funnel steamer beat her into Vancouver by three minutes. This is the second time the G. T. P. vessel has led the Alice into Vancouver, and there is now no doubt but that the Rupert's superiority will be acknowledged by those on the C. P. R. steamer.

TAXATION EXEMPTIONS FOR STATE PROPERTIES

Some Buildings Enjoying Special Privileges Under Existing Conditions

The proposal which is to be incorporated in a resolution on Monday night with regard to the better treatment of municipalities, which as capital cities, have a large amount of government property within them is one to which considerable attention has been given in Victoria, where it is naturally of considerable importance.

Both the Dominion and provincial governments have been paying special rates, like sewer, sidewalk, and boulevard taxes since work was commenced under the local improvement plan in Victoria, but the assessment of their property would make a material difference to the city. The provincial government last year contributed \$20,000 to the cost of the Dallas road sea wall, and they are large holders of property in the city. The parliament square represents about ten acres, out of which the local government in 1892 granted to the Dominion authorities a small area for the drill hall.

They have the jail site, upon which the city has already cast envious eyes, in the north of the town, and the valuable court-house property right in the business district. The parliament square and court house site would represent a large value at the high figure set on property to-day.

The federal government, as owners of the post office and customs, immigration buildings, the drill hall, and the marine and fisheries offices, as well as other federal property, have also a large share in the community. From those taxation they are exempt as crown property, and any suggestion which would bring about a disposition to a change would be welcome from the city's standpoint, however, desirable it may be to possess public buildings in a city.

Mr. Northcote, the city assessor, said this morning that the amount of land exempt from taxation used by government and church bodies in the city, represented between three and four millions.

SIGNAL ACHIEVEMENT OF VICTORIA GIRL

Miss Gertrude Flumerfelt Takes Degree of M. R. C. S. in London

Miss Gertrude Flumerfelt, daughter of A. C. Flumerfelt, of this city, recently won unusual distinction in London, England, where she has been studying for the past five years, by taking her degree of M. R. C. S. degree only within the past few years open to women, and which up to the present has been taken by very few. Miss Flumerfelt, who up to the time of her departure for England had lived most of her life in this city, is going on to Vienna, and one or two other continental cities to continue her studies, and take a post-graduate course in surgery and medicine.

OBITUARY RECORD

The death took place this morning at the family residence, 602 Battery street, of Mrs. Mary Ellen Moore, widow of the late John Moore. The deceased lady, who was 66 years of age, came to Canada in 1864 and had been resident in Victoria for the last nine years. She was born in the Straits Settlements. Funeral arrangements will be announced later.

The funeral of little Baby Mildred Roskamp, nine-month-old daughter of Mr. and Mrs. William Roskamp, took place this afternoon from the B. C. funeral parlors, Rev. Otto Gerlich officiating. There were numerous flowers, and quite a number of friends were present at the services.

The death occurred at St. Joseph's hospital at noon yesterday of Lee Dow, a Chinese from Chilliwack, who had been in the hospital for the last ten days. Lee Dow, who is married, and whose widow lives in China, has been in this country for the last nine years. The funeral took place this afternoon at 3 o'clock from the B. C. funeral parlors, proceeding thence to the Chinese cemetery, where interment took place, accompanied by the usual Chinese burial rites.

LOCAL NEWS

Mount Tolmie Car Service.—The car to Mount Tolmie will leave the corner of Government and Yates every evening at 5.25 and not as stated in the morning paper.

Croquet Postponed.—It has been decided to postpone the Victoria croquet tournament, which was to have been held next week, owing to the fact that the Vancouver tennis tournament is on then.

Gospel Service To-morrow.—Gospel service will be held at the Strangers' Rest, 1418 Government street, to-morrow evening at 8 o'clock, and will be conducted by Dudley Anderson. Strangers will be cordially welcomed.

"Robert Jordan Walker."—The first white child was born recently at the Vancouver Island Power Company's Jordan River plant, the proud parents being Chief Electrician Duncan J.

Walker and Mrs. Walker. The child has been christened Robert Jordan Walker, and has been showered with gifts, among these being a silver bowl and spoon, suitably engraved, from the V. I. P. Co.

Albani Wants High School.—At a meeting of the Port Alberni Conservative Association, held in Watson's hall, Port Alberni, on Thursday night, a resolution pointing out the necessity for a high school in Port Alberni that would serve the purposes of the district, and urging the government to provide same, was unanimously passed. This resolution will be presented to the district executive which is to meet in Parksville shortly and will likely be endorsed by all parts of the district.

ORGANIZER FOR SOCIALIST CAUSE

Will Lecture in City on Monday—Points From Career

Ex-soldier, lecturer, and organizer for the Socialist party, "Jack" Wood, as he is known to his friends, will deliver a lecture under the auspices of the Victoria Trades and Labor Council on Monday at the Labor hall.

The speaker, who was in his early days a soldier in India and Ireland, became in touch with the labor movement in the Old Country travelling for a firm in Smithfield

JAPAN'S EMPEROR IN CRITICAL CONDITION

Ministers Summoned to Palace but Physicians Have Not Abandoned Hope

Tokio, July 20.—The Emperor's condition at three o'clock this afternoon was so critical that the ministers of state were summoned to the palace and the announcement was made that His Majesty was sinking. A bulletin issued by the attending physicians gives the history of the Emperor's illness as follows:

"Since July 14 His Majesty has been suffering from intestinal trouble. Great drowsiness followed early attacks, this symptom increasing rapidly. On July 18th His Majesty became unconscious and his brain was affected. In the evening of the nineteenth the fever suddenly increased, showing a temperature of 104.7. The pulse ran about 104 and the respiration 39."

The court physicians in attendance on His Majesty to-day diagnosed the

THE EMPEROR OF JAPAN.

case as acute nephritis. It was announced later that uraemia had developed. His Majesty's bed had been moved to a sitting room in the palace. The Emperor remained at the bedside during the day.

The Crown Prince Ishihito, who is recovering from chicken pox, and still is confined to his bed, received the news of his father's illness to-day. He has not been able to visit the patient.

Condition unchanged.

Tokio, July 20.—10 p. m.—No bulletin has been issued from the palace since 3 p. m., but it was learned from the Imperial residence that His Majesty's condition remains unchanged. He is semi-conscious. The physicians have not given up all hope.

ELEVATORS LEASED.

Winnipeg, July 20.—Following a conference to-day of the cabinet with T. A. Crerar and R. A. Bonnar, representing the Grain Growers' Company, the provincial elevator system was leased to that company until such time as a sample market is established in Winnipeg. Six per cent. on the capital invested is the price paid.

FIVE KILLED BY EXPLOSION.

New York, July 20.—Five men were killed and several seriously injured by the bursting of a steamship on the steamship Prince of Wales.

When the steamer docked this morning her captain reported that the men were killed in the engine-room on Wednesday last, when the branch steamship burst.

W. Armstrong

(Late Foreman with the V.I. Auto Co.)

& Company

Mr. Armstrong wishes to inform his numerous friends and automobile owners generally, that he has opened a Garage at 921 Gordon St. (right facing the back of the Hinton Electric Co.)

The Machine Shop is being fitted up with the latest and best of Machinery and Tools.

Patrons may feel confident that any repairs entrusted to him, will be done in a first class manner, and at reasonable charges.

Note the address.

Armstrong's Garage

KING'S PRIZE WINNER.

Bisley Camp, July 20.—Pte. A. G. Fulton, of the Queen's Westminster, London, who won the King's prize with the fine grand aggregate of 335, out of a possible 355, repeated the triumph of his father as a private of the same corps in 1888. Lieut. Blackburn, of Winnipeg, tied at 329 with Sergt. Keeley, of South Africa.

Capt. Forrest, of Vancouver, and Lieut. Forrest, of Ottawa, made 318 and Sergt. Battershill, of Winnipeg, 305.

Blackburn was within one of a possible at the last range.

Following are the scores of the four Canadians at the concluding range, ten shots at 1,000 yards:

Battershill	345 554 440 4—38
Blackburn	555 455 555 5—39
Forrest	544 444 544 4—38
Forrest	544 444 544 4—38
Fulton's brother lives at Rapid City, Montana.	

CRICKET IN ENGLAND.

London, July 20.—The following cricket matches were concluded to-day, and resulted in draws:

Australians, 27; Leicesters, 27; and 68 for 3 wickets, abandoned owing to rain.	
Players, 181; Gentlemen, 242, and 20, for two wickets.	
Sussex, 223, and 262, second innings closed, declared Hampshire, 251, and 6, for two wickets.	

WOUNDED DOCTOR NOT LIKELY TO LIVE

Victim of Shooting Affair in Montreal Hotel is in Critical Condition

Montreal, July 20.—Evidently realizing the seriousness of her husband's position and the slim chance he had of escaping anything but life-long detention in a lunatic asylum, Mrs. Sheppard, wife of the Scotsman who yesterday shot and killed Fred McKenna, bartender at the Bath hotel, and wounded Dr. Devlin, son of the proprietor of the hotel, has decided to continue her journey to Scotland, whither she and her husband were bound when the tragedy interrupted their trip.

Reports from the hospital where Dr. Devlin is being treated for indicate that his chances of recovery are very slight. He had a hemorrhage this morning, and when he survived it his condition was pronounced by the medical men as very dangerous.

Sheppard, who was last evening put into a strait-jacket because of his displaying symptoms of a return of his mad fit, yelled and screamed most of the night, talking rationally about the crime. He told the police officers who had him in charge that since his accident in Chicago, when his head was injured, every week or so or when he gets the least excited he grows dizzy and then the wild desire he to murder comes over him.

NE TEMERE CASE.

London, July 20.—The Irish Chief Justice, Barron-Pallis, has been asked to assist the judicial committee of the Privy Council in dealing with the Ne Temere case set for hearing on Monday. The appeal is being followed with the liveliest interest, and overwhelming legal opinion is that the Canadian and the case soon disposed of. Hon. C. J. Doherty, minister of justice, hopes to leave for Paris on Wednesday.

Millar once led Europe in women's fashion—the term "milliner" originally meant "Milliner."

Lloyd George, the Man

British Chancellor of the Exchequer at Short Range

Personal contact with Mr. Lloyd George reveals physical characteristics which the photographer and cartoonist cannot delineate, writes Robert Donald, editor of the London Chronicle. In the Outlook: "If the eyes are the mirror of the soul, it is certain that in the case of Mr. Lloyd George they would be the most striking things about him to the physiognomist. Steel gray in color, they are ever observant, ever vigilant, stern at times and as uncompromising as the mountain crags about his Welsh home, at other times soft and kind, betraying the tenderness of his nature. When he smiles, as he often does—for the wit and humor of the Celt are strongly ingrained in him—you notice the deep-scarred lines in face, and forehead which tell of mental and physical pain, for Mr. Lloyd George has had much ill health. His hair, parted on the right side, is now quite gray, and flows in restrained waves about the massive head. The eyebrows, so far from being black and arched into the sinister-looking points made familiar to the public by caricaturists, are light in color and perfectly even. His commanding air adds inches to his stature, which is actually only some five feet and a half. His manner is restless, but the body becomes rigid under mental concentration with regard to any great problem; as, for instance, when I asked him to state his opinion of the recent coal strike in Great Britain and its causes.

"That was but a step of the times, and I was quite prepared for it," was the reply. "By all I have heard, and by what I have myself seen, I have known for the last couple of years that it was inevitable.

"What was the cause of the strike? It was purely social and economic. Politics had nothing whatever to do with it. It was solely rebellion against existing social conditions, and I do not think, on the whole, that even wages were a factor of much consequence. "You must remember that you are now dealing with a much better educated democracy than existed, say, thirty years ago. The thing everybody seems to overlook is the fact of our political or social principles, and the English Education Act of 1870. Since the passing of that act you have had a great system of national education, constantly improving and broadening. The working classes not only read now, they think."

"Then you attribute industrial upheaval, in this instance at all events, to better education of the masses?" "Undoubtedly. Wider knowledge is creating in the mind of the workman growing dissatisfaction with the conditions under which he is forced to live. I speak of my own knowledge. Take South Wales, which I know intimately. That was the breeding ground of the unrest which led to the coal strike. Housing conditions in South Wales are indescribably bad. The conditions under which the miners in some districts exist render decency impossible. There you have a country rich in natural blessings: exquisitely formed valleys which offer the most beautiful sites in the world for the building of well-designed townships, and for a mode of life which would elevate and not abase. Instead you find the houses unfit for human habitation. One cannot wonder that the educated democracy will stand that sort of thing no longer.

"Workingmen are realizing that they contribute to the wealth of the community without getting a fair share of the good things which result, and that is one reason why they strike, ostensibly for a minimum wage. "At this moment Sir Rufus Isaacs, attorney-general and member of parliament for the borough of Reading, entered the room, and, overhearing the chancellor's remark, observed that in law they long ago secured a minimum wage (when Sir Rufus was at the bar he was reputed to derive an income of something like £20,000—£100,000 a year from his practice). "And we got our minimum wage," said the attorney-general, "chiefly out of the criminal classes."

"Yes," Mr. Lloyd George remarked, "you extract gold out of the low-level mines."

"Industrial unrest, whether in this country or America, or in Continental Europe," continued the chancellor after this interlude, "is not alone a question of wages, it is a question of social betterment."

"We have been passing through a period of industrial tempests, and there are indications that the ship of trade is not yet entered calm water," he said to the chancellor. "Why are you opposed to the adoption of the remedy introduced by the Conservatives—the introduction of a protective tariff, as it exists in the United States of America, in Germany, France, Russia, Austria, Italy and other countries?"

"Because, in the first place," answered Mr. Lloyd George, "industrial unrest is as acute in those countries as it is in Great Britain, which shows that the remedy is not to be sought in the direction suggested by the Conservatives. Here in Britain we have no agitation against high prices. Prices have increased here, but to a much smaller extent than elsewhere. The ever-increasing prices of the necessities of life, which exist abroad, are the main-spring of the distress of the masses. The widespread and remediable poverty of the people as a whole can be cured, and it is the aim of the Liberal party to provide the cure by other means. In the initiation of a policy against which the people of other nations are protesting, for one thing, wasteful and extravagant expenditure must be checked."

"In what way are we using up our resources in wasteful and extravagant expenditure?"

"I might indicate to you two or three directions which will occur to all social reformers. Take, first, the money spent on armaments both in Great Britain and in other European countries. The civilized countries of the world are spending, on average, £500,000,000 (£2,500,000,000) a year upon weapons of war, and in the forcing of the machinery they are withdrawing from useful and productive labor some of the most effective and skilled brains. In this country the annual bill for armaments is something like £70,000,000 (£350,000,000); that is, it is costing us £8 (£40) for every household in the Kingdom. Were this burden removed, Great Britain could afford to pay every member of the wage-earning classes an additional dollar a week, without interfering in the slightest degree with the profits of capital.

"Another source of waste is the way in which the land of this country is administered," Mr. Lloyd George continued. "It is not producing more than a half of what it is capable of yielding. An enormous area is practically given over to sport. You have millions of acres exclusively devoted to game. A good deal of it is well adapted for agriculture and afforestation."

"When you come to the land around the towns here the grievance is of a different character. You may have a greater waste in parsimony than in prodigality. That is the way the land around our towns is wasted; land which might be giving plenty of air and recreation and renewed health and vigor to the workmen is running to waste, as the millions in our cities are crowded into unsightly homes which would soon fill with gloom the brightest and stoutest heart."

"The greatest asset of a country is a virile and contented population. This you will never get until the land in the neighborhood of our great towns is measured out on a more generous scale for the homes of our people."

"Another source of waste is unemployment—I mean, of the idle rich. I am not referring in the least to the men who by their own brains have made the money which enables them to indulge in occasional leisure and pleasure. I allude to the class of men who exist in large numbers in every country, perhaps than in any country in the world. You will find them lounging about in London clubs; or, in the country, walking about with guns on their shoulders and dogs at their heels; or upon golf courses, or tearing along country roads in motor cars at perilous speeds; not seeking to recharge exhausted nerve cells spent in useful labor, but as the serious occupation of their lives. These people account for something like two million of our population; their sole business is to enjoy themselves, often at the expense of others of our great multitudes who live lives of arduous toil without earning sufficient for food or raiment or repose.

"In these directions of our conditions for a thorough overhauling of our conditions. That time comes in my enterprise—commercial, national and religious; and we be to the generation that lacks the courage to undertake the task."

At this point the master of Ellbank quietly entered the room through the window from the terrace which communicated with his official headquarters next door. "Can I have a word with you?" he said. "The prime minister"—he called him the P. M.—"would like a cabinet meeting to-morrow at 11 o'clock; would that suit you? And—" The amiable intruder is known in parliamentary circles as "The Master." His name is really Murray, and he is the chief whip of the Liberal party—the head of the whole party machinery responsible for organization in the House of Commons and in the country. He is the "Bunt" of the Liberal party, and manages to pull the strings as pleasantly and as successfully as does Bunt Bigger in Graham Moffat's play.

"Following the great victory of 1906, when Liberalism swept the country, you had," I said, "turning to another subject, to feel your way, as it were, for a year or two, before you embarked upon economic legislation. You had to form a constructive policy by revising the old Liberal programme, which offered little to counteract the golden socialists."

"What would happen had you not done that?"

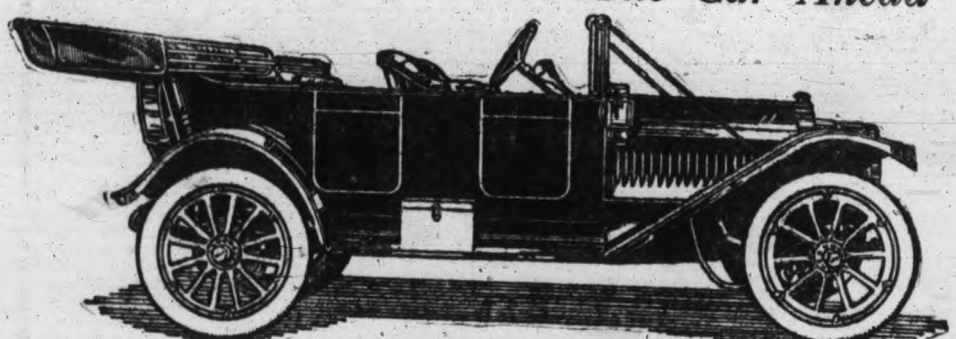

"We would have gone down like the Titanic," he was the emphatic answer. "We would have been wrecked on the iceberg of popular criticism and social discontent."

In order to retain and strengthen its hold over the working classes Liberalism had to become a more vital force, had to grapple with social problems in a new way. During the four years following the great Liberal victory which you mention the mind of the working man was uneasy. The return of the Labor party to the House of Commons was followed by a vigorous propaganda which in many cases took the form of Socialism. If Liberalism had offered nothing to combat the promises and plans of the Socialist leaders, freedom had suffered from reaction. The budget of 1909, attacking as it did, land monopoly and taxing the increased the faith of the workingman in its future. But for that revised Liberalism would have become an extinct political force, as it has in Germany, in some of the Australian states, and elsewhere. But for the new Liberalism Socialism would probably have swept South Wales. As it was, at the election of January, 1910, the Liberals defeated the Socialist candidates in that part of the country.

"That election was a test in more than the merits of the advocates. The Conservatives vigorously advocated the protection, holding out to the workmen the bait of higher wages and to the manufacturers greater profits. In the great industrial districts of England there was a regular Tannhäuser fight between the forces of evil on the one hand and the forces of good on the other—I leave you to judge which was which—for the soul of the workingman. North of the Trent, which cuts across the middle of England, the working classes rallied to the support of Liberalism, while south of the Trent, with the exception of London, the Conservative party greatly increased their hold. Note this curious anomaly. The producing manufacturing and industrial districts, including Lancashire and Yorkshire, were promised more work and higher wages under protection. They rejected the offer, while in the south of England, where there are

The Tudhope

"The Car Ahead"

This Car is Guaranteed for Two Years

If we did not know every pound of steel that goes into Tudhope Cars; if we did not make every part of our motors, and running parts; if we did not machine them, and grind them to the most exacting specifications in our own shops; we could not issue the liberal guarantee that goes with Tudhope Cars.

That guarantee is our assurance of the Tudhope owner that we have used the utmost care in building his car. It says that experienced men have watched every piece of material, as it passed through each process of milling, grinding, and polishing until, leaving our manufacturing department, it was ready to be assembled into the Tudhope Chassis.

Visitors to the Tudhope factory are surprised to see that we manufacture our own motors. Boring the heavy motor castings is a most important operation and one we feel we must do in our own shops. To ensure absolute alignment of the cylinders we bore them at one operation. We could buy these castings already drilled and ground—but if we did, we could not deliver a car as well balanced or as dependable as the Tudhope. We would not have absolute control over the construction. We could not

avoid the possibility of variation in size nor the use of inferior material—we could not GUARANTEE IT FOR TWO YEARS.

To be sure of a finish that will last through sun and rain, we build and finish our car bodies in our own factory. We also do the nickel-plating on all the metal parts, so that we can watch and inspect them and know that they will not wear off quickly in service.

In those parts, such as the magneto, tires, lamps, rims, etc., which we do not make, we use the very highest type obtainable. This anyone can verify by comparing Tudhope equipment with that of high-priced cars. The Bosch Dual High-Tension Ignition is the best system we know. Continental Demountable Rims—Tru-Ault-Hartford Shock Absorbers—Gray & Davis Lamps—Stewart Magnetic Speedometers are not found on any but the best cars.

Tudhope "Six" 48 h. p.—Six-Passenger Touring Car \$2,400

low industries and where large numbers live on fixed incomes and cannot possibly benefit by the lure of protection, they voted in favor of it."

"You do not consider, then, that the mandate which you received from the country in 1910 to go back to office and carry on your work was due entirely to the Liberal party's intention to limit the veto of the House of Lords?"

"That was a great factor in the fight; it cleared the way for Home Rule and other great belated reforms, but the victory meant much more. People were encouraged by the old age pensions which we had given, as well as by the schemes of social reform which were outlined in my budget of the previous April. I may mention here that in including that budget I departed from precedent and first spent an hour or two in sketching out my programme before dealing with financial incidence—a course which was criticised severely by my opponents. I regarded that plan as absolutely essential; for I wanted to make it clear that I was not taxing the rich for the purpose of making more revenue, but for the purpose of spending more money on the social well-being of the community."

"What further effort will the Liberal party make with regard to the social amelioration of the people?" I asked.

"Social reconstruction, the betterment of the condition of the masses, has still to come. There are millions of our people living in circumstances which no civilized community should tolerate. Social well-being must be secured through improved housing, the release of the land, and the betterment of the condition of children. The future of this country rests entirely with its children, and, alas, many of them are being reared in one-roomed homes and surroundings which exercise a soul-destroying influence. Families of five and six are herded together in a single room. How can they be made good citizens under such conditions? I regard the slum child as a great national asset, and we must carve out for him a brighter future if he is to be worthy material out of which we shall weave the fabric of this great Commonwealth."

The interview was again interrupted by the appearance of a bishop—the Welsh bishop of St. Asaph, who called to discuss some point about the bill for disestablishing the Anglican state

church in Wales, of which the bishop is a distinguished ornament. While Mr. Lloyd George is eager for disestablishing the bishopric, which does not disturb the friendship between them—they remain brothers within the family of Welsh nationality. Several other members of the government came and went—the chancellor's doors and windows are always open; he is the most accessible of all ministers.

With regard to British international relations, Mr. Lloyd George expressed his opinion particularly on the effort upon civilization of a better understanding between England and Germany.

"The misunderstandings which exist and are fostered by sections of the people of both countries," he said, "are a misfortune, not only for each country, but for the whole of Europe. Prosperity is the ordinary of peace, and peace is the first condition of continued prosperity. The policy of increasing expenditure on competitive armaments can end only in financial ruin, and, unless England and Germany come to an understanding, there is no likelihood that the growth of armaments throughout Europe will be arrested."

"England and Germany have much in common. Great Britain has benefited

a great deal by lessons learned from the social experiments carried out in Germany, while Germany has been able to build up its commercial prosperity to some extent on the experience of our own country. This community of interests and kinship must be fostered, and by the mass of the people in both countries such a course would be welcomed. Thereby a heavy burden would be lifted off their shoulders and immense sums of national expenditure would be released and could be devoted to purposes for uplifting the people."

KEEP YOUR HORSES IN PRIME WORKING CONDITION

SOUND legs pull big loads. No horse with a sprain, splint, curb, rim, bone, or any other ailment can do his best. Thousands of horses have been kept in their prime by using Kendall's Spavin Cure. The cure cures two spavins with your own hands. It is safe and sure and can be used at once. The swelling is disappearing—also that lameness.

KENDALL'S SPAVIN CURE

acts quickly, leaves no scars or blemishes, and costs little. 5¢ bottle—6¢ for 25¢. Get our valuable book—"Treatise on the horse"—free at your druggist or write us.

Dr. S. J. KENDALL CO., ENOSBURG FALLS, VERMONT, U.S.A.

The Empress Theatre.

There is a varied bill offered vaudeville patrons at the Empress theatre during the coming week. White's Comedy Circus, which includes Punch and Judy, two mules, insured by Mr. White for no less than \$10,000 each, and a number of performing dogs and leaping hounds. This circus is an animal act of high class. There are many laughs when the bucking mule is brought on and two colored men seek

dainty couple of misses direct from Broadway, are a pair of good singers and dancers, and have spared nothing in staging their act. Their costumes are striking. Perhaps the best of their offering is a yodling song and a college girl duet. They have been winning much applause on their tour in the west.

Wolcast-Rivers Moving Pictures. Jimmy Coffroth and other fight pro-

HUNGARIAN QUARTETTE
With the Allens at the Victoria Theatre.

in vain to ride the animal. The dogs offer a good performance and the hounds give some examples of high leaping. There is comedy in bunches in this performance.

Hugo Lutgens, who is known in vaudeville as "The Swedish Dialect Preacher," has been taking the audiences by storm. The Seattle Times says of his performance: "Yon Yonson" and "Ole Olson" ought to be ripe for revival, to judge by the storms of approval that yesterday greeted Hugo Lutgens, the Swedish dialect preacher, at The Empress. The applause came from nearly every seat in the house, from boxes to balcony, and it was sincere and prolonged. Lutgens' big success can hardly be attributed to his dialect, which has been familiar on the stage ever since Gus Hecke introduced it nearly a quarter-century ago. But in the case of Lutgens, it is probably the way his act is put together. His twist of English is perfect, he is humorous without obvious effort, and his subject matter is keenly philosophic and touches a response all its own. At any rate, Lutgens may set himself down as a Seattle hit."

Constance Windom, with two men to assist her, will put on a sparkling little comedy entitled "An Up-to-date Invention," which the New York "Telegraph" says is "One of the laughing finds of the season." There is a humorous travesty element running through it, and much opportunity is given the clever comedienne for breezy dialogue in the complicated situations which abound in the playlet.

Verni Verdi and her brother, one playing the cello, the other the violin, offer a musical act which will doubtless please. They play a repertoire which ranges from ragtime to classics, and the playing of Mendelssohn's Spring song is one of the hits of the act. They are a couple of well-trained musicians and have carefully selected their repertoire.

Jean de Lisie and Sarah Verni, a

motors are trying to get the Wolcast-Rivers match for Labor Day, but Uncle Tom McCarey, who brought these boys together on July 4, says that they will fight at Vernon and nowhere else on Labor Day.

Uncle Tom also comes through with the information that no outside man will ever referee at Vernon again. Charles Eyton, the Los Angeles referee

WOLCAST, RIVERS, JACK WELSH AND TRAINERS
Pictures of fight shown at Empress moving picture theatre on Monday.

and the official referee of McCarey's club, will act hereafter.

Wolcast and Tom Jones would not stand for Eyton in the July 4 fight, and insisted upon having Jack Welsh of San Francisco. The fight ended in a mix-up and now Jack Welsh is not a popular man around Los Angeles.

Wolcast and Rivers agreed to have two fights regardless of the outcome of the July 4 meeting. Months ago

when they signed articles it was for two fights July 4 and Labor Day—and while no doubt everything was on the up-and-up last Thursday, still folks will talk when two boys are already hooked up for a return match before they settle the first one.

As to whether Rivers was fouled or not Victoria folks will soon be able to judge for themselves, for the pictures of the fight are to be shown at the Empress Moving Picture Theatre for one day only, Monday, July 22. After that the films will be shown over the northwest for 90 days, but will not be brought back to Victoria, so next week is the time to see them.

The Associated Press accounts of the Wolcast-Rivers fight had Rivers outpunching Wolcast all the way, and losing in an unfortunate mix-up in the thirteenth round.

The Associated Press story had Johnson winning as he pleased from Flynn at Las Vegas, yet old Bill Naughton, the veteran of a thousand fights, says that Johnson was a badly worried negro and was mighty glad when the police stopped the fight.

And the men who really know the fighting game disagree with the Associated Press report of the Wolcast-Rivers fight fully as much as Naughton differs from the Associated Press account of the Las Vegas fight.

H. M. (Beanie) Walker, sporting editor of the Los Angeles Examiner, is an authority on the first game. He is not friendly to Jack Welch, for he really wanted his friend, Charley Eyton, to referee the bout. Walker is very friendly to Rivers, yet he printed the day after the bout:

"Rivers could scarcely have lasted the 20 rounds. Wolcast, always the aggressor, was boring in after devilish fashion. At long range Rivers could outbox the champion, but when Ad threw himself forward with one of his characteristic lunges, flailing away at body and head, Joe could only cover up, back away and fight strictly on the defensive. Many will disagree with me, but I sincerely believe that Wolcast established his supremacy over the Mexican. The confusion in the thirteenth round was caused by Referee Jack Welch completely losing his bearings."

There is a lot more to the same effect, Walker taking the position that Wolcast won every round after the fourth. Charley Eyton, official referee of the

club, who was not allowed to officiate because Wolcast and Tommie Jones would not stand for him, also says that Wolcast was the winner. After pointing out that Welch momentarily lost his head when he pulled Wolcast to his feet while counting out Rivers, Eyton adds: "There are always a great many people who will cry 'job' and say they have been robbed. I will say in regard to this that even if Welch was dishonest, which I refuse to believe, it was unnecessary to be so on this occasion, as Wolcast was far in the lead when this unfortunate mix-up occurred."

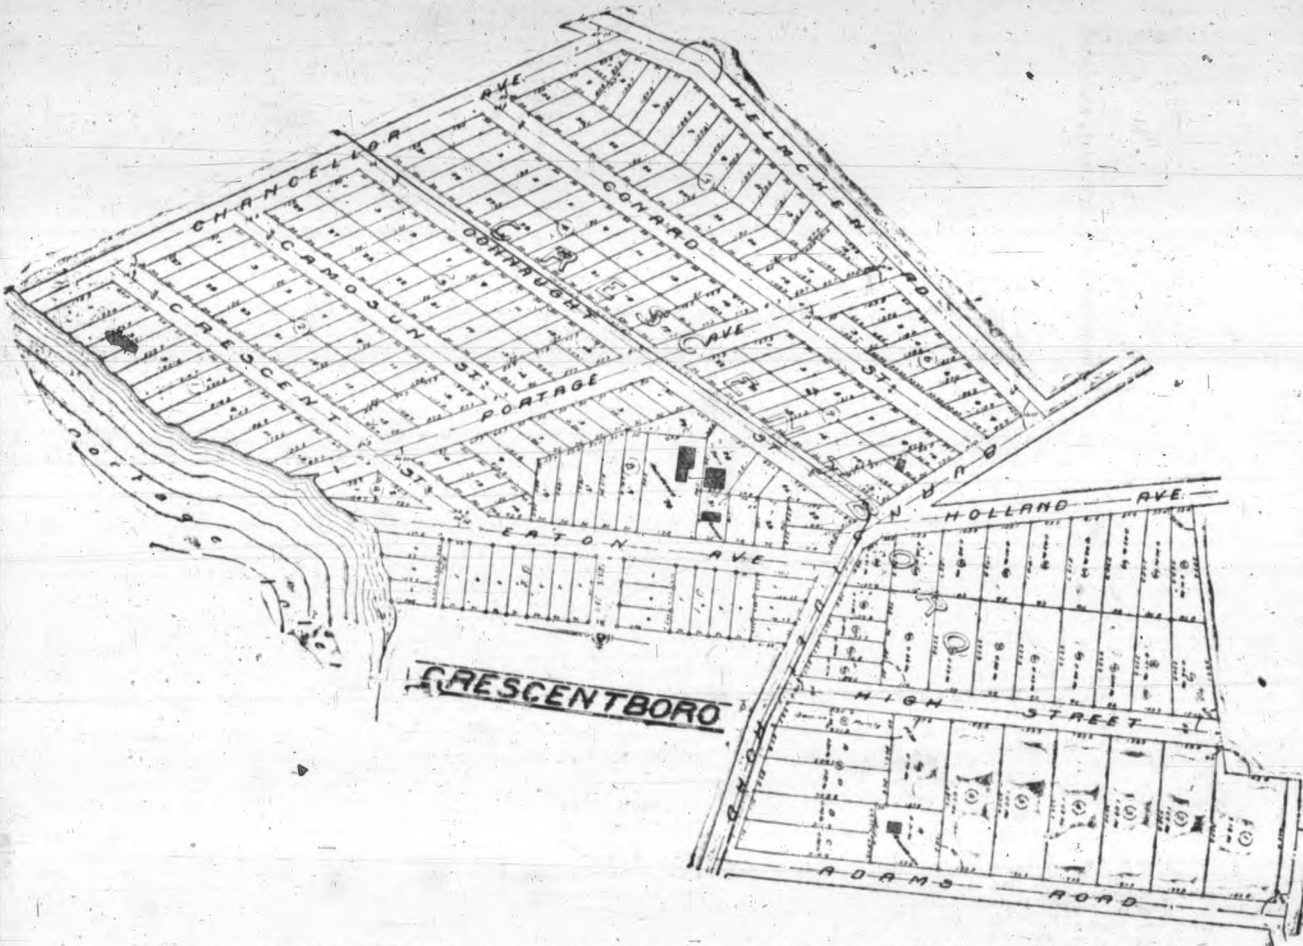

Princess Theatre.

The Williams Stock Co. present Arizona the coming week. It deals with life in military circles and most of the prominent characters are officers in the United States army. "Arizona" is one of the finest plays it is possible for a company to produce and should win favor. The plot is excellent, and the situations and climax are unusually intense. The first act opens just before the Spanish war, on a ranch near Phoenix, Arizona. Mr. Canby, owner of the ranch, has two daughters. The eldest one, Estrella, is married to a colonel in the United States army. At the opening of the play she is on a visit to her father's ranch. Her husband's command is stationed near, and as time hangs rather heavily on her hands, she renews a flirtation (begun some months previously) with one Capt. Hodgman. Her younger sister, Bonita, is engaged to a young lieutenant, and they are soon to be married. This lover, Lieutenant Denton, overhears an elopement planned between the colonel's wife and Captain Hodgman also sees her deliver her jewels into his keeping. Impelled by his great friendship for her husband who has been a faithful friend to him, he interrupts their flight and also insists that the jewels be given up. This is done, but the captain goes directly to Col. Benham and pours out his mind against Denton, claiming that he is in love with the colonel's wife. Inflamed with jealousy the colonel hastens to his wife, only to find her in earnest conversation with the lieutenant, while the jewels are still in his hand. He is accused, but cannot clear himself without implicating the woman. He refuses to justify himself and is asked for his resignation from the army. Arthur Belasco, a new member of the company, will open his en-

(Concluded on page 16.)

PROFIT

Is the object of all proper dealing in any commodity. Some articles of commerce pay larger profits than others.

Real estate in growing cities, is one of the best paying commodities into which the thinking investor can put his money.

The above cuts show a subdivision of one of the best things offered in real estate values in or near Victoria.

Read about the exceptional prices and terms.

PRODUCING

A good income upon the money invested is the primary object for consideration.

This subdivision, combining so many attractive features in the way of free taxes, 6 per cent interest and with only one-fourth of one-fifth cash required as first payment, with the balance extending over 4 or 5 years, meets all these requirements. Our illustrated circulars fully describe the property. Call or write for one and get one for your friend who is also desirous of making a safe and profitable investment.

PROPERTIES

Of the ordinary kind, without any distinctive feature, will not sell so readily as those possessing advantages like those of Crescentboro. Overlooking the Gorge, Royal Roads to Esquimalt Harbor, the Straits and Olympic mountains beyond, these lots have a picturesqueness found in no other properties in or near the city. Together with this, they are only 15 minutes' walk from the tram line, the same distance from Victoria as Cadboro Bay, where property is ten times the price. The water main from Sooke passes through the property. Prices run from \$450 for 50x120 feet, to \$1350 per acre. Motor leaves hourly for Crescentboro.

THE OUTLOOK.

Significant Sentiment.—The world, in its darkest days, has never been without moral reformers who have sought at all times to educate the public conscience towards abolishing the existing evils. It would be difficult to say which was the more effective in gaining results, modern eloquence or ancient logic. Whatever the decision may be, the appeal has always been proportionately more successful as it has come from those nearer the seat of authority. Hence it is with a great deal of pleasure we have read the account of the effort of Colonel Sam Hughes to rid the training camps of the canteen, even at the cost of some of his officials, and also the appeal of the leader of the Liberal forces in Ontario. Both of these efforts bear the hall-mark of sincerity and determination and we shall wait the result with a great deal of interest. It is of more than passing interest to note that these two efforts are from parties diametrically opposed in political spheres.

The two gentlemen, as representing respectively, sentiment and power, would make a fine team and would make a splendid showing if only they could be hitched up with other harness than the party trappings.

A Strong Acquisition.—The fact that Dr. Chown, general superintendent of the Methodist Church of Canada, is to take up his residence in Vancouver is cause for rejoicing. This is so, not because it will give our great west greater prestige or bring it increasingly before the eyes of the world, but because of the knowledge that the west is in need of strong men to mould her future, to take a share in solving her problems and make her a tower of strength for the defence of all that is best in the life of a people. We are not thinking so much of Dr. Chown's church relationship, though the B. C. Methodist church will no doubt rejoice in his coming, so much as we count on the type of man he is and the part he will play in all the affairs of life. The more men of the culture and training and experience and conviction of Dr. Chown we have the better will be the prospects for our province, morally, educationally, politically, and in any other way we can think of which is in harmony with advancement and progress.

METHODIST.

Metropolitan.—The services were well attended last Sabbath, the occasion of Dr. Scott's first appearance in the pulpit as pastor of the church. A great deal of delight and profit was found in the utterances of the doctor, and if the old saying "First impressions are the truest," holds there is a very happy future before the congregation. A public reception was tendered to Dr. Scott and his family on Tuesday evening in the schoolroom. The building was filled to its capacity and a very social atmosphere pervaded the place. Speeches were made by the representatives of the various departments of activity in the church, all promising their support and loyalty to their pastor, to which Dr. Scott replied in expressions of gratitude and pleasure at the welcome they had afforded him to this church and city.

Epworth League.—The meeting last Monday evening was under the direction of the missionary department, and a very pleasing company was addressed by Mrs. McDonald, of the local corps of the Salvation Army, who gave an outline of the work and success of the army in this city. Next Monday the meeting will be addressed by Dr. Scott under the auspices of the citizenship committee.

Centennial.

Reception Service.—Forty new members received into church fellowship was the record of last Sabbath morning's service. It was a most interesting time. The pastor spoke in a most appropriate manner, touching upon the significance of the service, after which the sacrament was dispensed to the largest number of communicants that has been witnessed in recent times. The congregation are keeping up well during the warm weather, and pastor and officials are much encouraged. Epworth League.—The programme for last Monday evening's meeting took the form of a debate which proved to be a most both in instruction and entertainment. The resolution "That Prophecy was justified in depicting the pirate" was defended by Stanley Young, Mr. Alton and Miss McEwen, while it was opposed by Mr. Thomas, Miss Hunt and Mr. Roberts. The judges were Mr. Campbell, of the North Ward school; Mr. Patterson and Mr. Hadland. The affirmative had the best of the argument, and were awarded the victory, although the decision was not easy to give. The debate was carried out on splendid lines, evoking a discussion which was no mere playing about the surface of the subject, but one which took into account the very basic principles of the topic. Next week the meeting will be addressed by Miss Elliot, the Metropolitan deaconess.

Picnic.—The Ladies' Aid and the Women's Bible class are uniting in the arrangements for a picnic which is to be tendered to the several Epworth Bible classes within the church as well as to the teachers and officers of the Sabbath school. The event is to take place one week from date, and is to be held at the Gorge park. A very pleasant time is anticipated.

Ice Cream Social.—A very pleasing

event took place on the lawn at the home of Mr. and Mrs. J. Patrick last Wednesday afternoon and evening. A varied programme was carried out to the extreme satisfaction and enjoyment of all the friends.

Victoria West.

Epworth League.—The citizenship department were responsible for a very enthusiastic meeting of the league which was held last Monday night on Russell Island. Several interesting papers were read by young men of the league, thus adding profit to the pleasure of the outing. Next Monday the meeting will be on Portage Inlet, and will be in the hands of the social committee.

Ladies' Aid.—The regular meeting of the Ladies' Aid was held last Tuesday afternoon at the parsonage, where a large agenda of business of an important nature was gone through, after which refreshment was served on the lawn. Arrangements are under way for a grand concert to be given in the church next Tuesday, for which some of the best talent in the city has been secured.

Esquimalt.

Cottage Meeting.—A prayer service under the auspices of the Adult Bible class was conducted at the home of O. J. Cook, Constance avenue, last Tuesday evening, by Mrs. McAdam. The meeting was a thorough inspiration to every one present. These meetings are held every month, and are securing for themselves and the class a great reputation. It is here where the results of the labors of the class on the Sabbath are seen to great advantage.

FAIRFIELD.

New Church Operations.—At a meeting of the trustees held on Thursday evening last it was decided to adopt the plans as submitted by Thos. Hooper for the new church, which is to grace the corner of Bond and Moss streets. It has not yet been decided whether the building will be in brick or frame, but when it is finished it is expected that it will have a seating capacity of about 500 persons. Provision is to be made for the addition of a gallery when size of congregation warrants. A Sabbath school will be on the ground floor, having a series of separate class rooms, causing it to be amongst the most up-to-date and well appointed schools on the coast. It will accommodate a large school.

BAPTIST.

Tabernacle.—Young People's Society.—At the last meeting of this society Miss Mary Nicols, who is visiting at her home in Scotland, was elected to the presidency in the place of Mr. J. Birnie. The society has discontinued its meetings for the rest of the summer months.

Church Bids Good-Bye.—The congregation have been called upon recently to say good-bye to one of their most valued and esteemed members in the person of Miss Laura A. Blackwell, who is shortly to be married to Rev. H. McNeil, of the Yale-Cariboo country.

To-Morrow's Services.—The pulpit will be occupied both morning and evening to-morrow by Rev. S. D. West, who comes to Victoria with the recommendation of the superintendent of Baptist missions in British Columbia.

First Church.

To-Morrow's Sermons.—The pastor will preach the third of the series of sermons on the "Life of Moses" to-morrow morning, when the topic will be "The Exodus of Moses." In the evening the subject of the sermon will be "The Law of Heredity—Does it Destroy Personal Responsibility?"

Young People's Society.—A large attendance marked the first meeting of the meeting last Monday evening. The topic was "Happy Memories and How to Make Sure of Them." Miss Mary Freeman led the meeting. Letters read from former members and reminiscences contributed by those present, added greatly to the interest of the meeting.

Prayer Meeting.—The Meaning and Message of Baptism.—The topic taken by the pastor for the Thursday evening meeting this week. It is expected that several candidates will have the ordinance administered on Sunday, July 28.

Emmanuel.

Choir Practice.—The choir has discontinued Friday evening meetings for practice for a few weeks.

Sunday Services.—The Sunday school and Bible classes for adults continues as usual on Sunday afternoons at 2:30. At the close of the evening service next Sunday the Lord's supper will be observed.

Bible Study Class.—The Bible study class for young men, which has been under the leadership of Mr. Reginald Chave during the past three years, was entertained by Mr. and Mrs. Chave at their beautiful home, "Winona," Cloverdale on Wednesday evening last. There was a goodly group of the young men, who were joined during the evening by the pastor and Mrs. Stevenson.

LUTHERAN.

Luther League.—The league met in monthly session at the home of Mr. and Mrs. L. Schmeiz, Shakespeare street. The routine business being disposed of the evening was spent in a pleasant social way. After some excellent refreshments had been served and the members were prepared to depart for their respective homes a pleasant surprise was sprung by several friends, who swooped down upon the assembled company, and bore them off by automobile for a short ride in the cool evening air, taking all to their several homes.

Corner Stone Laying.—Of peculiar interest not only to the members of St. Paul's congregation, but to Lutherans throughout the province will be the laying of the cornerstone, which forms

ally marks the erection of the new St. Paul's Lutheran church. As far as can be ascertained this is the oldest Lutheran congregation in British Columbia. Its present chapel on Meares street is the first Lutheran church building in Western Canada. While not the only Lutheran congregation in the city at present it is the first to mark the erection of a house of worship by this formal service according to the usages and rites of the Lutheran church.

The pathway of this congregation was in the past thickly strewn with difficulties, but they were met with a courage begotten of faith, and they were conquered. The faithful devotion of those who, in the face of all sorts of discouragements nevertheless "stuck to their colors," is worthy of the highest praise. Of the pastors who served St. Paul's in past years none will be better remembered than the Rev. Mr. Heinicke, who was loved and esteemed by all who knew him. The laying of the foundation stone for a new house of worship marks the inception of a new period in the congregational life of St. Paul's. It may justly be expected to be a period of growth and development not merely numerically, but spiritually as well.

Services in the City Churches

Announcements of Sunday's church services for insertion in Saturday's Times, must be received at the Times office not later than four o'clock on Friday afternoons.

ANGLICAN.

Christ Church Cathedral, Burdette avenue. Holy communion at 8 a. m., matins at 8:15 a. m., holy communion at 11 a. m., preacher, the Lord Bishop; evensong at 7 p. m., preacher, Ven. EXEMPTIONS OF STATE PROPERTY

IMPORTANT QUESTION TO CAPITAL CITY

Groynes for Ross Bay Wall—
The Bay Street Embankment at Rock Bay

Mayor Beckwith brought to the attention of the city council, sitting as a committee yesterday, the necessity for taking action over the assessment of government property, both Dominion and Provincial, which is now exempt from taxation, in accordance with the accompanying resolution of the Halifax (N. S.) city council, recently adopted: "Resolved that the council request the Union of Canadian Municipalities to secure through its convention in August next the united co-operation of the municipalities of Canada in approaching the governments of the Dominion and of the various provinces asking for grants by such governments to the capital cities of the provinces of annual amounts in lieu of taxation of government properties now exempt under the general assessment law."

He pointed out how large an amount of property in Victoria was exempt, and that a resolution should be drafted along these lines, for presentation to the convention, and ultimately to the governments concerned.

Alderman strongly supported the idea and said Victoria should be adequately represented at the coming Windsor convention.

Alderman Gleason, while agreeing that the resolution should be passed, said the governments in paying local improvement charges here admitted their liability to taxation, at any rate so far as the special rates were concerned; but of course, from general civic taxation they were exempt.

Alderman Dilworth foresaw difficulty in connection with other cities not capitals of provinces, who would be inclined to fight the change, but there was no doubt a change should be made.

The resolution will be formally moved at the next meeting of the city council, on similar lines to the Halifax resolution.

Gorge Bridge Path.

The city engineer will repair the path under the Gorge bridge, as it is on city property, at the request of the Saanich municipality, in whose area it lies.

Motor Cycles Approved.

Although Mr. Rust suggested that the purchase of motor cycles would enable him to reduce the number of timekeepers, and to provide transportation for Mr. Lindsay, superintendent of sewer works, Alderman Gleason (the chairman) said it would be better to find the men employment than buy motor cycles, though, perhaps, other work could be found for them. The item passed, the cycles to cost \$312 each. The committee authorized the purchase of a Ford runabout for the engineering officials, especially for Mr. Owen, the old car to be exchanged, and \$500 extra to be paid the company in connection of the purchase.

The Canadian Mineral Rubber Company was granted the contract for paving the part of Quadra and Burdette, west of Douglas, at a cost of \$1.65 per cubic yard for heavy asphalt, being the price paid on McClellan street, adjacent, where the company is paving. This will complete the road from Douglas easterly.

Groynes at Ross Bay.

Following the decision to add groynes opposite Dallas road, the city engineer now suggested that a similar course should be adopted in the case of Ross Bay wall, and this will be recommended to the council at a cost of about \$1,500.

Bay Street Embankment.

In order to pave Bay Street permanently, the city has to make some rearrangement with G. B. Ordano, of Cowichan, who secured a subway of wood to give access to his property in 1905 when the city undertook to fill in the trestles and make an embankment for the street cars to Esquimalt, and Victoria West. This must now be removed or replaced in connection with the paving. W. H. Price addressed the committee as an interested property owner affected by the proposed abandonment of the passage under the embankment, and it was left to Alderman Gleason, the city solicitor and engineer to make a report on the subject.

Rock Bay Bridge.

Adjacent to the embankment the Rock Bay bridge joins the Esquimalt road, and although it was repaired at the cost of several hundred dollars after the Sunset Sound Mill fire, when the bridge railing was destroyed on the west side, the city engineer recommended that further repairs should be carried out at a cost of \$350, by laying down two-inch planks, and this will be done, although Alderman Gleason entered a protest against further money being spent on the structure. Alderman O'Neil pointed out that the bridge was a great convenience to a large number of persons.

Plumbing Inspector.

There was a discussion on the exact status of the plumbing inspector's department, which the engineer wanted defined some weeks ago, but no final decision had been reached. It was resolved to have all matters of construction and maintenance of sewers with the engineering department, and plumbing, as it is now, with the health department, as a matter over which Dr. Hall should have some say. Mr. Shade will apparently be responsible to both officials, in the several branches of his department, a proposal to create a separate department being rejected without a division. Alderman Cuthbert said Mr. Rust having been engaged to re-organize, full assistance should be given him in making any changes.

Owing to the impossibility of alter-

DAIRYING PLANTS AROUND VICTORIA

TO BE ESTABLISHED
BY A. F. MACLAREN

Well Known Canadian Cheese
Magnate in City Yesterday.
—Big Enterprise on Foot

Having established the supremacy of Canadian cheese in the markets of the world, Mr. A. F. MacLaren, of Toronto, originator of the Imperial brand, purposes doing the same with Canadian milk and cream. With a number of other capitalists, including Senator Rufus Pope, of Cookshire, Quebec, he has acquired the exclusive Canadian rights for a French patent process which preserves milk and cream in their fresh state for an almost indefinite period.

Mr. MacLaren, who was in the city yesterday, a guest at the Empress, expects to have at least sixty plants in operation throughout the prairie provinces and British Columbia within the next twelve months. He stated today that the discovery has long since passed the experimental stage.

"The output is now on sale in six hundred Toronto stores. We accomplished in three months what it took me six years to achieve in the city in regard to cheese," said Mr. MacLaren.

Looking Over Field.

During his stay on the coast he will look over the field with a view to establishing plants. He is favorably impressed with the possibilities of the Fraser River Valley and the country around Victoria for supplying the required material. Ownership is vested in the Laurentia Milk Company. It sells the patent rights in each province, retaining a share of the stock. It is customary to organize in each province a parent corporation whose duty it is to market the product. The company owning the general patent rights directs the building of the various factories and supervises the initial operations.

We aim to establish these plants at the sources of raw milk supply all over Canada. The four plants in Alberta are doing a profitable business and we shall have eleven additional ones in the same territory before next fall. In this we have an educative work to perform: that of persuading the farmers to take up mixed farming at least to the extent of raising milk cows. I have always believed that the cow is one of the mainstays of Canada's prosperity. The farmers' out west don't realize how profitable the dairying industry is. They seem to give sole attention to the production of grain, but this can not go on forever. I think that conditions in British Columbia, especially on the lower mainland and Vancouver Island will be much more favorable.

"By our process the globules of the milk and cream are broken down without robbing them of their nutritive properties. It sterilizes both articles and preserves them fresh for years. We are already working up a big demand in foreign markets but of course the main output will be disposed of at home."

Treatment Mechanical.
Mr. MacLaren exhibited samples of milk and cream treated by the new process which do not contain chemicals of any description. The treatment is a purely mechanical one. Mr. MacLaren explained that these products do not curdle and will have a great bearing on the reduction of infant mortality. In a measure the same will apply to adults. The fluids are put up in ordinary glass bottles with an air tight seal.

Mr. MacLaren, who is accompanied by Mrs. MacLaren, returned to the mainland last night. Mr. MacLaren, although a very busy man in a business way, has found time to interest himself in politics, and for twelve years represented North Perth in the House of Commons. While in Vancouver, he with Hon. Rufus Pope, called upon Sir Charles Tupper, their old chieftain, whom they found as deeply interested in public questions of moment as ever.

WEATHER BULLETIN

Daily Report Furnished by the Victoria
Meteorological Department.

Victoria, July 20, 5 a. m.—The weather is fine and comparatively cool from Vancouver Island southward, while in Kootenay it is very hot. Cool and showery

The Crowning Achievement of Progress

For Immediate Investment

At the present moment there is no point on the Pacific Coast which is more prominent in the minds of the public than Hardy Bay at the North end of Vancouver Island.

Everybody is watching and waiting for important railroad announcements that should soon establish beyond all question the future of this prospective sea port. HARDY BAY is at this precise instant just where Prince Rupert was five years ago. Those of you who made money in Prince Rupert will need no further comparison. For the benefit of others who may not be familiar with those conditions which are about to revolutionize the shipping facilities of the entire West Coast of Canada, we have prepared an entirely reliable and authentic folder about the HARDY BAY district which you will enjoy reading. It is yours for the asking.

Arrangements are Being Made to Clear the Entire Townsite

Panama Canal and the Railways

The future of HARDY BAY is bound to be affected by the increase of ocean-going traffic brought about with the completion of the Panama canal and the resulting stimulation of Canada's trade with the Orient, New Zealand and Australia. Do you realize that the great trade routes of the world are about to be changed? Do you realize that these changes mean the establishment of new railways and terminals? STUDY YOUR MAP. Note the strategic position of Vancouver Island with reference to the Pacific Coast. Note the protected position of HARDY BAY, not only for ocean-going traffic but for the big fleet of vessels that ply on the inland waters. If you cannot see what this means to you in dollars and cents, send for our booklet which tells you how you should make from 200 to 1000 per cent on investments at HARDY BAY.

Never Say, "If I Had Only Known About Hardy Bay"

Some people complain that they never have a chance to get in on the good things of this life. Every man, woman and child who reads this advertisement can have no possible excuse to say this if they will only carefully study the situation at HARDY BAY. Success is for those who reach out and grasp it. All we can do is to lay the map of HARDY BAY before your eyes. Send for this map. Study it thoughtfully. Make up your mind whether a proposition that is good enough for some of the wisest men of British Columbia is good enough to appeal to you. Make up your mind that HARDY BAY is going to be one of the ten great sea ports of the world. Put as much money there as you can afford. A dollar will go much further now than when the actual developments have commenced. Your money will buy more to-day than it probably will in a few weeks. This is the chance that you have been looking for. If you fail to grasp it, it is no one's fault but yours. Make your reservation to-day. Sit down this very moment and write us about it. We are always glad to answer questions.

THE GREEN ROOM

(Continued from page 12.)

agement with the important part of Colonel Benham. Richard Lonsdale will play the juvenile lead, Lieutenant Denton, which is very much in his line, and Miss Mildred Page in the role of the younger daughter Bonita, has a part that calls for a varied display of emotion, which she is quite capable of portraying. The colonel's wife will be taken by Miss Hallie Mitchell. Although "Arizona" is strongly dramatic it has several good comedy parts, and all combine to make it one of the most interesting and realistic dramas ever produced.

The Allen Players.
P. R. Allen, manager of the Allen Players stock company at the Victoria theatre, announced "The House of a Thousand Candles" for three nights next week and as one of the productions to be seen in the near future the company will stage "Leah Kleschna." The past week the company has succeeded in producing the historical play "Nell Gwynne," the success of which was far better than the management believed it would be through a full week. It will be withdrawn after tonight. The population of Victoria has a liking for the best seats in the house. Last night a young man came down from the gallery and complained that he did not like to stay there alone. When he bought a fifteen-cent ticket he at least thought there would be one other up there, but the bareness of the benches on their arrival there had stopped him. Later there were four who ascended to the gods.

"The House of a Thousand Candles" is a dramatization of the well-known book of that name by Meredith Nicholson. It was one of the "best sellers" of its time and is still one of the big sellers. The dramatization has been successful in Europe and America, and Miss Verma Felton, appearing as Marion Devereaux, has been widely praised on the Canadian circuit, over which she has played the part frequently. Miss Marie Thompson will be seen Monday night as Marion's companion, Miss Gladys Hudara as Sister Theresa. The male characters will be taken by H. Irving Kennedy, who will appear as

Real Estate, Loans, Insurance

Glenora, by G. D. Zucco, who is to represent Bates. Mr. Connors will be Larry. There are some minor characters that will be well taken. "The House of a Thousand Candles" is a play of mystery and interest. There are four acts with the interest of the man who died to suit himself, maintained till the end. The actions of the son to whom he leaves the estate, conditionally, are a strong part of the play and the characters combine to keep the interest at high tension throughout. The Allen company will make a change of bill on Thursday night.

Girlish Complexion
Now Easily Acquired

"A skin of blended snow, cream and rose" is the way an Ohio correspondent describes her newly acquired complexion. She is one who has adopted massage, steaming and other methods. Many who have tried this marvelous wax report that its effects are quite different from those of any other treatment. It produces a complexion of exquisite girlish naturalness, rather than one bearing evidence of having been artificially "made over." One that is indeed "Nature's own," the result of gradually absorbing dead particles of surface skin, permitting the younger, healthier skin beneath to show itself and giving its pores a chance to breathe. Merciful wax, procurable at any drug store in original one ounce package, is put on at night like cold cream and washed off in the morning.

I have also had many favorable letters from those who have tried the wrinkle-removing face bath which I recommended recently. If any have mislaid the formula, here it is: 1 oz. powdered saxolite, dissolved in 1/2 pt. witch hazel.—Julia Orr in The Clubwoman.

TOUR OF BRITISH CADETS.
Contingent Will Sail From England on August 3.—To Visit West.

Ottawa, July 20.—Word has been received that the British cadet contingent, which will come to Canada to shoot in the D. R. A. matches, will sail from England on the Empress of Britain on August 3. Col. J. D. D. Bressford, who was with Lord Roberts at Kandahar, will be in charge of the contingent. Captain F. Edwards, of the Sixtieth Rifles, will be adjutant, and Col. Sir Wm. Watts, C. B., will also probably accompany the party, which will consist of eight cadets from Eton, Winchester and other local schools, and eight cadets from the Territorial Training forces. After the exhibition the cadets go to the west.

MINER KILLED.

Cumberland, July 20.—A Boruski, miner, employed at No. 7 slope, was killed by being run over by a loaded car. He leaves a wife and four children.

Mileage of the railways of the United Kingdom exceeds 23,000.

KEEP THE SKIN CLEAR

With CUTICURA Soap and Ointment

No other emollients do so much for pimples, blackheads, red, rough and oily skin, itching, scaly scalps, dry, thin and falling hair, chapped hands and shapeless nails. They do even more for skintortured and disfigured infants.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 25-page booklet on treatment of skin and hair, will be sent, post-free, on application to "Cuticura," Dept. 544, Boston, U. S. A.

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Goods of James Lunney, Deceased

TAKE NOTICE that Probate of the Will of James Lunney, late of the City of Victoria, British Columbia, formerly of Salt Spring Island, has been ordered to issue to Alexander Wilson and Richard Maxwell, the executors in the said Will named.

FURTHER TAKE NOTICE that all persons having any claims against the Estate of the said James Lunney are required to send full particulars of the same, duly verified by declaration, to the undersigned on or before the 22nd day of July, 1912; and all persons owing any money to the said deceased are requested to pay the same forthwith to the executors. After the 22nd day of July, 1912, the executors will proceed to distribute the Estate of the said deceased according to the said Will, having regard only to the claims of which they shall then have received notice.

Dated this 22nd day of June, A.D. 1912.

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY

Do not start any new enterprises, for some anxiety will prevent you giving them sufficient attention. Think well before you accept gifts from others, as everything must be paid for and it is better to know the price before committing yourself.

Those born to-day will be fond of travel and change and should take care in going from place to place. If they will understand the nature of their associates they will get along much better, as their own natures lead them into trouble.

IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

For your real, genuine, simple, pure exclusiveness you must go to a club. Club is an English word; they have no equivalent for it in other languages; and France, and Italy, Germany and Russia use the English term.

That is because it is essentially an English thing. A club is a "clump" or "knot" of persons joined together for social or other purposes. That was its original meaning, doubtless.

But it is implied that to shut us in means to shut everybody else out. And it is the shutting out that is dearer to your true-born Briton's heart than the shutting in.

I have belonged to several clubs, and still go to one occasionally; and I here admit, that the secret pleasure I take in walking into the building, past the uniformed door-keepers, consists in the consciousness that my fellow men upon the street would be promptly stopped if they attempted to enter.

This I regret as a low pleasure, and I am ashamed as I write it. But all the same it is a distinct pleasure. I inherit it, I suppose from my English ancestors, just as I inherit some other things I like and am ashamed of from my chimpanzee ancestors.

For the owner of an Englishman's enjoyment of life is to know that some one else wants and cannot get what he has. His garden must have high walls. His forests must have gamekeepers, who should be called poacher-shooters. His house is rightly called his castle. His whole fabric of exclusiveness upon the desirability of exclusiveness. His home, his park, his railway compartment, his club, all are marked with his idea of heaven, which is for the elect; and the greatest of these is his club, for there even his wife is shut out.

There has just been completed at Ebor, a carpet which is said to be the largest in the world. Its dimensions are 62 metres by 40 metres—that is, 201 feet by 130 feet. It has been made for an American club at a cost of \$10,000. It was necessary to construct a wagon to carry the "giant" to Trieste.

NOTICE

In the Matter of the Estate of Robert Austen Brown, late of the City of Victoria, British Columbia, deceased.

NOTICE is hereby given that all persons having claims against the late Robert Austen Brown, who died on the 12th day of June, 1912, are required to furnish particulars thereof to the undersigned, duly verified.

And that after the 1st day of August, 1912, the Executors will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which they shall then have had notice.

Dated at Victoria, B. C., this 29th day of June, 1912.

City Hall, Victoria, B. C., July 18th, 1912.

NOTICE OF DISSOLUTION

NOTICE IS HEREBY GIVEN that the partnership heretofore existing between Samuel Heyman and Toufic Doumani, known as The New York Tailors, has been dissolved as from the 8th day of July, 1912.

TOUFIC DOUMANI,
SAMUEL HEYMAN.

IN THE SUPREME COURT OF BRITISH COLUMBIA—IN PROBATE.

In the matter of the estate and effects of Mary Medina, otherwise Mary Gillespie, late of No. 135 Menzies street, Victoria, B. C., deceased.

Notice is hereby given that the last WILL and TESTAMENT of the said deceased was on the 25th day of June, A. D. 1912, duly proved in the said Supreme Court and probate thereof issued thereout to Edward Milward Johnson of No. 618 Broughton Street, Victoria, B. C., the executor in the said will named.

All persons, firms or Corporations having any claim or claims against the estate of the said deceased are hereby required to furnish particulars thereof, duly verified, to me, on or before the 15th day of August, A. D. 1912. All persons indebted to the estate of the said deceased are required without delay to pay the amount of indebtedness to me.

After the said 15th day of August, I, the said executor, will proceed to distribute the estate of the said deceased among the persons entitled thereto, having regard only to claims of which I shall then have had notice.

Dated the 9th day of July, A. D. 1912.
EDWARD MILWARD JOHNSON,
Executor,
No. 618 Broughton Street,
Victoria, B. C.

THE ORDER OF THE EASTERN STAR meets on the second Wednesday of each month during the months of June, July and August, at 8 o'clock, in R. of P. Hall, Douglas street.

SONS OF ENGLAND B. S.—Pride of the Island Lodge, No. 131, meets 2nd and 4th Tuesdays in A. O. F. Hall, Broad street. President, P. West, 537 Hildale Ave.; Secretary, W. H. Trowbridge, 539 Wilkins st., city.

To be topical, one should, of course, write about the heat, for with the mercury in the thermometer doing its level best to lift the lid off, it is a very hard subject to ignore anyhow. When King Sol celebrates his coronation, as he has been doing during the last week, the only thing for poor humans to do is to take in a good story of those who, and think hard of Arctic snows.

There was a wise man in the street car the other day. While all the other passengers were sweating and talking in hushed whispers of how many records were being broken up in the meteorological office, he was calmly reading Capt. Robert Peary's account of how he reached the North Pole. One could see that he was reposing in imagination, among hummocks of ice in the far frozen north. He was the only cool man in the car.

And that leads us to note the attitude of the Hindus, while the thermometer was hovering round the magic number ninety. These dreamy-eyed men from the East have been in their element.

"This," they seem to say to every perspiring white man they pass—"this is just what we are accustomed to. Look how we enjoy it."

They seem to have assumed an air of patronage towards our poor unlearned selves who have not turned the knack of looking like the proverbial cucumber when our blood is literally and figuratively boiling.

What a heat wave is exactly would be hard to explain; but the weather experts, who control the whole business, would undoubtedly tell you in accents of awe, that you are in the throes of an anti-cyclone—which, you will agree with me, is distinctly illuminating if you know what an anti-cyclone is. Probably you don't; and in that case you should write to the newspapers about it. By the time you get an answer it may possibly be raining, or freezing or something and you won't want to know.

What is the best way to keep cool? I have asked that question to dozens of people who most obviously had not found a satisfactory solution. One suggested reclining on the ice-chest when it was not being used for culinary purposes; another facetious friend suggested a cabbage leaf worn between head and hat, while a third recommended eating salads all day long, to prevent spontaneous combustion, whatever that may be. I offer these suggestions to a grateful public for what they are worth. (Cheques and postal orders should be crossed.)

Of course if you work in an office the best way to meet the heat wave is to be taken suddenly ill and have to be removed to the seaside for your health. There you can stand up to your neck in the tide and defy his majesty "blazing on high."

"A wise man poor is like a noble book that's never read; To himself he liveth, but to all else is dead."

The above pathetic lines are suggested by remarks which have been made during the last week or so by

SHERIFF'S SALE

Under and by virtue of certain writs of Fieri Facias issued out of the Supreme Court of British Columbia against the goods and chattels of the Westholme Hotel Company, Limited, and to me directed, I have seized and taken possession of all the goods and chattels contained in, and upon the premises known as the Westholme Hotel, Government street, Victoria, B. C., consisting of the complete furnishings of the hotel, consisting of 36 bedrooms, reception rooms, office, bar and grill, stock of wines, liquors, cigars, provisions, etc., and will offer the same for sale, as a running business, on the premises on Thursday, July 1, 1912, at 11 o'clock a. m., at public auction. Terms of sale, cash. The highest or any bid not necessarily accepted. A list of the contents of the hotel can be seen, and all information regarding business can be obtained on application to the undersigned at the Westholme Hotel.

F. G. RICHARDS, Sheriff.

Sheriff's Office, Victoria, B. C., July 4th, 1912.

P. S.: The above sale is postponed to a date to be fixed.

F. G. RICHARDS, Sheriff.

July 16, 1912.

NOTICE

Navigable Water Protection Act

NOTICE is hereby given that Martha Amelia Sophia Barnard, wife of Frank Stillman Barnard, of the City of Victoria, British Columbia, is applying to His Excellency the Governor-General of Canada in Council for approval of the area plans, site and description of the works proposed to be constructed in Western Bay, Victoria Harbor, Victoria, British Columbia, being land situated, lying and being in the City of Victoria, aforesaid, and known, numbered and assessed as Lots 10 to 18, 20 to 22 and part of Lot 23, Victoria City. Map also three strips of land shown on the said plan as roads and an alley, closed by Order of Court, File No. 236, and has deposited the area and site plans of the proposed works and description thereof with the Minister of Public Works at Ottawa, and a duplicate thereof with the Registrar General of Titles at the Land Registry Office at the City of Victoria, British Columbia; and that the matter will be proceeded with at the expiration of one month from the time of the first publication of this notice in the Canada Gazette. Dated this 15th day of April, 1912. MARTHA AMELIA SOPHIA BARNARD, by her Solicitors, Messrs. Robertson & Hollinger, 311 Fort St., Victoria, B. C.

Monday—Canton Victoria No. 2.
Monday—General Relief Committee.
Tuesday—Colfax Rebekah Lodge No. 1.
Wednesday—Columbia Lodge No. 2.
Thursday—Dominion Lodge No. 4.
Friday—Victoria Lodge No. 1.

Building Committee.
A very important meeting of the building committee will be held on Tuesday evening next at the same time and place as heretofore. It is the earnest wish of the chairman that all members of the committee be present sharp on time, as there is considerable business to be transacted. Committee, please take notice.

General Relief Committee.
The committee will hold its regular meeting on Monday evening next at 8 o'clock. Considerable business is to be transacted, and it is hoped all members will be on hand. There are nine sick brothers on the list now, all of whom are improving satisfactorily.

Columbia Lodge No. 2.
Hereafter the degree work in this lodge will be put on immediately after the reading of the minutes of the previous session. In order to make the innovation a success, it is up to the members to be on hand early. There are several good arguments in favor of the scheme, the most prominent one being that those who take part in the degree work and do not care to stay for the business session may leave early. It has been the custom for some time to leave the degree work until about 9 or 9.30 o'clock, thus working a hardship on some members of the degree team who have a long distance to go home, and who also have to rise early in the morning in order to be on time at their work. It is hoped that all who wish to see this scheme successfully carried out will be on hand next Wednesday evening at 8 o'clock sharp.

There are a large number of members who do not take part in the degree work who would attend if they were assured that the degree would be put on early and thus enable them to leave at an early hour. This is their change. The noble grand, vice-grand, team captain and other officers will be encouraged by a large attendance on Wednesday evening next. Members of No. 2 give the officers your hearty support in this matter. Third degree next Wednesday.

Dominion Lodge No. 4.
Those members of this lodge who have not attended a session for some time will be greatly surprised at the efficient manner in which the new officers are performing their duties. Just take a run up to the lodge room some Thursday evening. There is nothing like a good attendance to encourage your officers.

Victoria Lodge No. 1.
The first degree was exemplified last evening by the officers of this lodge in a very efficient manner. There is a very enthusiastic membership in No. 1 at the present time, and the team captain's heart is made glad these days. Colfax Rebekah Lodge No. 1.
The regular meeting of this lodge will be held on Tuesday evening next. As it will be the first meeting after the installation of officers a large attendance is expected.

Vancouver Encampment No. 1.
The second degree was conferred upon a number of candidates on Tuesday evening last, and the officers performed their various duties very acceptably.

ENJOYING THE BEST OF HEALTH

'Fruit-a-tives' Cured His Rheumatism

PROF. J. F. DAVIS

"563 Church Street, Toronto.
"I want to say to the people of Toronto and elsewhere that 'Fruit-a-tives' is my only medicine and has been for the last four years. Previous to that, I had been very much troubled with Rheumatism and Kidney Disease, and had taken many remedies as well as employing hot applications of salt bags, etc., without getting satisfactory results.
"Noticing the advertisement of 'Fruit-a-tives,' I adopted this treatment altogether and, as everybody knows, since taking 'Fruit-a-tives,' I have been enjoying the very best health and find it a pleasure to follow my vocation of Dancing and Deportment Instruction.

"PROF. J. F. DAVIS."
Prof. Davis, the celebrated teacher of dancing and deportment in Toronto, is quite frank in stating that "Fruit-a-tives" alone cured him of distressing Rheumatism and Kidney Trouble. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives, Limited, Ottawa.

acceptably. The third degree will be exemplified at the next meeting, August 6. There being five Tuesdays in this month the next meeting will not be held until the first Tuesday in August. Considerable new talent has been added to the degree team this term, and it is expected that some very creditable work will be done.

Canton Victoria No. 2.
The regular meeting of the Canton will be held on Monday evening next. A large attendance is desired, as there is considerable business to be transacted.

Premier L. O. L. No. 1610.
The regular meeting of Loyal Orange Lodge No. 1610 will be held at the Foresters' Hall, Broad street, on Monday, July 22, Alex. Hall, past grand master of the Orange Young Britons, who is representing the Orange Sentinel, of Toronto, will be present. All members are requested to attend. Final arrangements for the organization of another Orange lodge in the city will be completed.

Jerusalem is to have electric street railway, electric lights and modern fire engine.
Germany started the first of all the temperance societies in the year 1817.

If You Are Looking For A Home

YOUR SEARCH IS ENDED

I am leaving for England in a week and want to sell my home on the corner of Olympia and Battery streets, in James Bay district. This is a cut of the house as it stands to-day. It is an eight roomed semi-bungalow, built about a year ago, on a lot 55x100 ft. Two large airy bedrooms upstairs and two on the ground floor. Large comfortable dining room paneled and beam ceiling, large home-like living room with fire place. The den is paneled and has a fire place. Large light kitchen with plenty of room to move around in. A full sized basement with cement floor, hot air furnace. This home is a very few hundred feet from the sea commanding an uninterrupted view of the Straits and Olympics. Rear entrance allows for car. Now, I am not a real estate man nor an advertising man, but merely have attempted to set forth the facts and ask you to verify the same.

The Price is \$10,000

Terms, \$2500 cash, balance over four years.

SHORTS COVER IN NEW YORK MARKET

Improvement in Sentiment but Big Interests Have Not Altered Attitude

(By Courtesy F. W. Stevenson & Co.)
New York, July 20.—Somewhat more cheerfulness has been in evidence of late in the stock market, and as a result shorts have become rather nervous and actively covered. In addition there has been some substantial buying for long account predicted on the satisfactory crop outlook, but nothing has occurred so far that would tend to alter materially for the better the political or investment situations, and therefore despite the improvement in sentiment referred to above, in some quarters it is not as yet apparent that substantial market interests have changed their attitude relative to the stock market. It was quite authoritatively, though in no wise officially, announced that the regular dividend would be paid on St. Paul common, despite the fact that present earnings do not warrant such a course. However true the above may be, it has nevertheless served the purpose of inducing quite a little scattered buying on the part of shorts in St. Paul, which has imparted strength in other quarters, as the action of the issue was taken by some to reflect the attitude of certain financial interests. There has been rather good selling of late in St. Paul common against the purchase of the roads convertible bonds. The latter have priority over the stock issues of the company and are considerable from an investment standpoint. Not much attention is being paid to international politics on this side of the Atlantic for the present, though advices from abroad indicate powers are not pleased with existing state of affairs, especially as heavy liquidation continues in consols, and as the investment markets in London, Paris and Berlin are rather congested.

FINANCIAL NOTES.

In Minneapolis there was a fair cash demand for wheat to-day.
Weather forecast: Missouri, unsettled and showers; Kansas, fair, not much change in temperature; Nebraska, unsettled and cooler.
Early declines in cotton caused some liquidation of stop orders to-day.
At Kansas City, cash wheat slow of sale, one cent lower.

REPORTS OF WHEAT EXPERTS BEARISH

Little Change in Prices in Chicago—Pit—Corn Dealers Take Profits on Shorts

(By Courtesy F. W. Stevenson & Co.)
Chicago, July 20.—There was a nervous market in wheat to-day with no great change in prices or any decided trend in course of values. The general tendency was toward lower levels, extremely optimistic reports from the Northwest and Kansas exceeding expectations. Estimates of Ingalls and other crop experts are bearish. However, to a large extent the fine prospects have been discounted, and the fact that prices are practically on a working basis with foreign countries makes it more difficult for shorts to depress prices than it was a week or so ago, when prices were much higher. A liberal run of hard winter wheat is expected the coming week which may have a depressing effect on prices, but not much red winter wheat is pressing for sale, and the market is now a two-sided affair.
Sentiment was mixed in corn, and the big decline has caused some conservatives to take profits on shorts. Complaints are coming of a poor outlook in the best section of Kansas, and in several other places. The crop outlook is unimpaired. Cash trade was of small proportion to-day, with prices about steady. Showy conditions are predicted. The primary receipts for the week totalled 2,337,000 bushels, against 1,632,000 bushels a year ago. Until the crop is assured it is a good trading market.
Rains over large part of the oats territory caused a firmer tone in this market. Projections are for general showy conditions over Sunday. Cash demand fair.

PROMINENT Y.W.C.A. WORKER IN CITY

MISS WINGATE HERE STUDYING CONDITIONS

Is Head of Employment and Emigration Department of Y. W. C. A.—A Great Work

Miss Wingate, head of the British National Employment and Emigration department of the Y. W. C. A. and one of the members of the council of the British Women's Association, arrived in the city yesterday in the course of a tour of the Dominion for the purpose of studying all the local conditions and finding out just what openings are available for girls, and just what sort of girls the country needs.

A Great Organization. Those who have not, in some way, come in touch with the Y. W. C. A. employment agency are few indeed, but even those who have could scarcely realize the enormous work which is being done by this great agency which has branches all over the world, and through which domestic servants, housekeepers, typists, secretaries,

nurses, and what not, may find posts. The head office of this great system is at 26 George street, Hanover square, London, where seven or eight secretaries are kept busy from morning until evening interviewing girls and employers, mistress and maid alike meeting to explain their requirements with the intelligent women who have the management of the work of the department. Here also comes the educated woman to find an opening for her services, one to find an opening as house mistress in a Canadian college, another as laundry mistress in a government prison, another as lady housekeeper to a colonial clergyman, and others secretarial positions in city offices, libraries, etc. Among the waiting girls are often foreigners who want to be made known through capable interpreters and through whom girls of twenty-three different nationalities made their requirements known last year, and for whom good places were found.

Miss Wingate's Mission. This is the first occasion on which Miss Wingate has ever visited Canada, the trip being taken so that she might see the character of the great country to which the girls are being sent out yearly in ever increasing numbers. Canada, perhaps, because nearer England than any of the other colonies, seemed to attract more of the young women than the more distant parts of the Empire. Hitherto the Y. W. C. A. emigration department has worked in co-operation with the British Women's Emigration Association, sending many of its girls out with the protected parties which are sent every month or two by the latter organization in charge of capable matrons. On this side of the Atlantic the association is at work, and before the girl who puts herself in the hands of the emigration department has left England—if she travels alone—a letter has already gone to the secretary of the Y. W. C. A. of the place to which she is coming, telling her by which boat she travels, her name and her needs. On her arrival she is met by a member of the association, who sees that she starts off on her journey by rail properly equipped with information which will secure her safe arrival. It is this personal touch and care and friendly welcome to the stranger, as she faces new conditions, that is the special feature of the work of the Y. W. C. A., and of the homes which have made the association known throughout the world. Perhaps as an exchange of compliments for the help which the British Women's Association has given in bringing out the Y. W. C. A. girls, in this province the whole work of the British Women's Association has been done by the Young Women's Association.

Progress in Canada. Miss Wingate is very much interested in the work which is being done in the Dominion, and speaks highly of the institutions as she has seen them in Toronto, Montreal, Calgary, Vancouver, Winnipeg, and in this city, and says that the work is growing rapidly in every centre which she visited. In Toronto there are nine different centres of the association at work, more than four thousand girls having passed through the homes last year, and several thousand more having been directed to good boarding-houses. At the luncheon rooms from five to eight hundred girls lunch daily, and make use of the rest and reading rooms. Similar hotels are to be found in Montreal, Winnipeg, and other cities, while at Calgary is one of the most up-to-date homes of the association in all Canada. At Regina, the new building opened May last, with accommodation for sixty girls, was among those partially wrecked by the devastating storm which destroyed so many buildings in the city, the walls injured by falling off, and the walls injured by falling beams. Even there, said Miss Wingate, the work of providing for the girls was only temporarily disarranged, and the Travellers' Aid was sent out as usual to meet the girls on incoming trains.

Travellers' Aid. The Travellers' Aid is one of the branches of the work which is very important, and which the public generally recognize as being an excellent institution, about fifteen of the associations across the Dominion having agents out to meet all incoming trains. It is partly on account of this that the transient assistance given to girls is so enormous, and Miss Wingate says that there is a pressing need for more hostels. At Moosejaw a campaign is in progress at the present time, and it is the intention of the promoters to erect a large building which will accommodate the big number of transient visitors who are always stopping over between trains. In Toronto another large building is in course of erection—a building which she feels sure will no longer be opened than filled.

Training For Positions. With regard to the training schools in which the girls are prepared for the positions which they come here to fill, Miss Wingate thinks that there is a great deal of room for improvement. The great field for women, she thinks, is in the home life of the new country. "The home," she says, "is a place of rest and self-expression, and until we teach women the dignity of the work of home-making we will make of the men and women of the nation only parts of the mechanism of a great machine, devoid of individuality and without independence of character. Women must teach each other the dignity of home-making, and then we will find the servant problem lighter, and the home life nearer the ideal."

erect a large building which will accommodate the big number of transient visitors who are always stopping over between trains. In Toronto another large building is in course of erection—a building which she feels sure will no longer be opened than filled.

Training For Positions. With regard to the training schools in which the girls are prepared for the positions which they come here to fill, Miss Wingate thinks that there is a great deal of room for improvement. The great field for women, she thinks, is in the home life of the new country. "The home," she says, "is a place of rest and self-expression, and until we teach women the dignity of the work of home-making we will make of the men and women of the nation only parts of the mechanism of a great machine, devoid of individuality and without independence of character. Women must teach each other the dignity of home-making, and then we will find the servant problem lighter, and the home life nearer the ideal."

To many of the provincial associations in England the county council sends its teachers of domestic science, laundry, cooking, sewing, etc., although in London itself no training schools are run in connection with the association because of the number of London county council training schools, where these subjects are taught. It is partly on account of the lack of interest usually taken by domestic servants in these courses that so many of them, coming out to new conditions, are unable to undertake work which is not exactly under similar conditions to those which they have had at home. Because of this, girls are warned against accepting situations abroad until they are equipped with knowledge which will assure them of a means of livelihood, unless advised and helped by some responsible society. Those who are capable are advised through the association against doubtful offers of employment where girls may be facing, not only disappointment, but actual dangers. In taking this wider emigration work the department is involved in considerable expense, but the service rendered the girls is invaluable and it is for the purpose of having an even clearer view of the needs of the Dominion, and of seeing also what it has to offer, that this official of the British national employment department of the Y. W. C. A. has come out.

A Paris authority estimates the world's output of new securities in 1911 at \$2,556,123,000, and of which \$1,562,100,000 was floated in North American continent.

PRESIDENT SUSPENDER
NONE SO EASY

If Your Laundry Were Burned Out

Would you be repaid for the loss of your clothes? Would you recover the value of the goods you had "in the wash" when the fire started, or would you just swallow your loss and put it down to misfortune?

If you send laundry to the New Method Laundry, we can answer for you and say that you WOULD BE REPAYED EVERY CENT OF YOUR LOSS. In addition to many other safeguards and precautions—some of which seem, even to our friends, superfluous but which we insist upon in living up to our motto—we made new arrangements for the FULL INSURANCE AGAINST FIRE of all parcels of laundry entrusted to us while they are in our care. This insurance is absolute and patrons of this laundry may rest undisturbed.

CLOTHES SENT TO US ARE INSURED AGAINST DIRT, UNSKILLED LABOR, CONTAGION, LOSS AND FIRE. IF THERE IS ANYTHING ELSE WE CAN DO TO IMPROVE THE SERVICE WE OFFER, WE'LL PROVIDE IT.

Complaints have been made to us during the past week that Chinese have been calling at various houses, representing themselves as coming from this laundry and asking for parcels of wash. We would merely state that WE EMPLOY NONE BUT WHITE HELP IN ALL DEPARTMENTS.

In warmly thanking our friends for the splendid manner in which they have responded to our offer of improved laundry service we would state that our business has increased to such an extent during the past month that we have now installed additional machinery. We believed a month ago that we had provided a delivery service adequate for a long time to come but we have had to send a rush order for more waggons in order to keep our delivery service up to the required standard. They will be ready in from eight to ten days.

New Method Laundry, Limited
Office and Works, North Park Street, Victoria.

Take a Dose of Nature's Medicine

Throw away your half filled bottles of dope and poison. Your patent nostrums and doctors' concoctions. You know they haven't done you any good, and that your stomach is all upset as the result of filling it with these poisons. You know they have weakened your nerves and taken the life out of your blood. Get back to nature. Consider how she cures and gives her assistance. Nature will cure you if she has the power. This power is electricity. That's because electricity builds up, supplies nourishment, strength to the body. Drugs destroy, tear down, because they contain poison instead of life.

Electro-Vigor. Why? Because it paralyzes the nerves. The nerves are delicate wires that enable you to feel pain. If you poison your nerves with drugs you can't feel the pain until the stupor wears off. Then the pain comes back, and you have to repeat the dose until Nature removes the cause.

If you have a pain in your head you can stop it for a few hours by stupefying it with poisonous drugs. But to cure that pain you have got to remove the cause. That pain is sometimes caused by kidney trouble. So you can't see that to remove the cause you must restore the kidneys to healthy condition.

The reason the kidneys, liver, stomach or other organs become weak or debilitated is because they become paralyzed and must be revived either artificially or by Nature, before they can do their work properly.

Weakness in men is caused by an exhaustion of electricity. Get back that force and you will have your strength. Electro-Vigor pours a stream of electric life into your nerves while you sleep, and these conduct the force to every organ and tissue of your body, giving health and strength to every part.

It removes the cause of disease and when the cause is removed Nature will restore health. Electro-Vigor is a dry-cell battery, which you wear while you sleep and gives out a continued current of electricity. You never have to charge it, for it makes its own power. It does not burn or blister and never shocks the nerves. The only sensation is a soothing glow. We have perfected Electro-Vigor so that it conveys a stream of electric life direct to the part that is ailing, so that the great force of current goes where it is needed and none is wasted.

Calgary, Alta., 429 17th Ave. E., May 28th, 1912.

Dear Sir:— I wish to state your Electro-Vigor has done more than I anticipated. I am more than satisfied with the results, and will continue to use same as I noticed a marked improvement after one week's use. I shall be only too pleased to recommend your treatment to any one I come in contact with, but for private reasons, prefer not having my name published.

Wishing you every success, and thanking you for your Yours very truly, S. E. D.

Stillwater, B. C., May 27th, 1912.

Dear Sir:— It is just four weeks since I began using Electro-Vigor, and I must say it has done wonders for me. My rheumatic pain in arms and shoulders is all gone, and also my nervousness. I have no more tired feeling in the mornings, but wake up happy and fresh as a lark, and in good spirits the whole day long. I hope in another month to be just as well as ever.

Yours gratefully, FRED URSIN.

We Give It Free
